To,

The principal

SCOE Kharghar

Navi Mumbai 410210

Subject –Permission to conduct Webinar on LTE and 5G Protocol stack testing for BE EXTC students

Respected mam

We are extc dept requesting for arranging webinar on LTE and 5G Protocol stack testing for BE EXTC students In month of august kindly permit us to adjust time schedule and give permission for the same .

Thanking you

  
Yours faithfully

Prof. Naresh sir and Prof. Nilesh sir

Principal SCOE

Kharghar, Navi Mumbai - 410 210.

**Name of event: IETE Approved National Level webinar on "LTE and 5G Protocol Stack Testing"**

**Date:** 29<sup>th</sup> August 2020, 10.45 a.m. to 3.30 p.m.

**Name of the Speakers:** Mr. Virender Solanki, Mrs. Priyanka, Mr. Samdhan Jadhav and Mr. Sagar from Technopark Business Solution Pvt. Ltd, Navi Mumbai

**Name of Convener:** Dr. Sheetal Bukkawar (Dean, Admin & Student Welfare)

**Name of Coordinator:** Prof. Naresh Kumar Joshi & Prof. Nilesh Patil

**Mode of Conduction:** Online (GoToMeet app)

**Number of participants: 108**

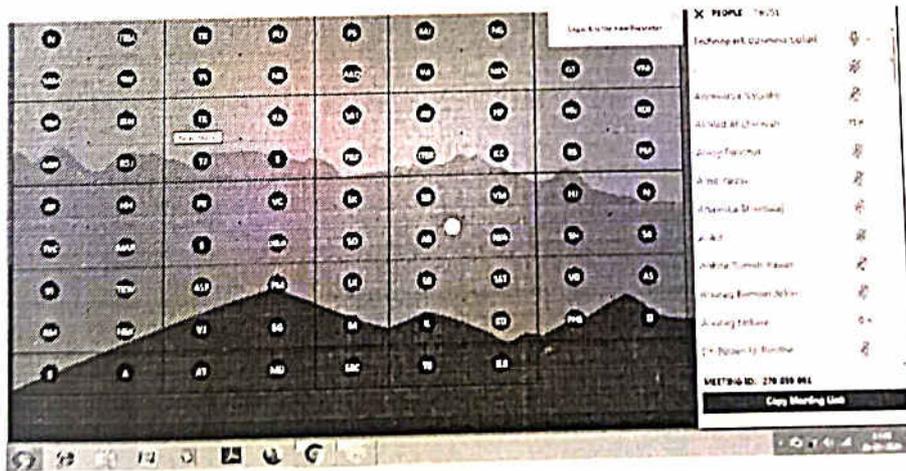

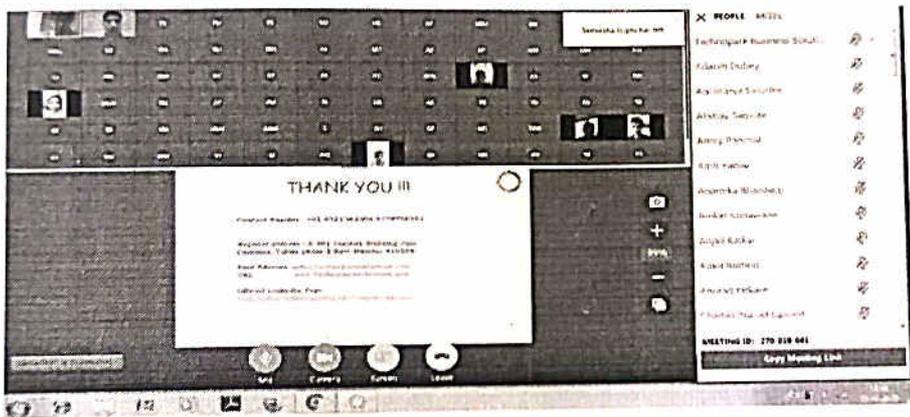

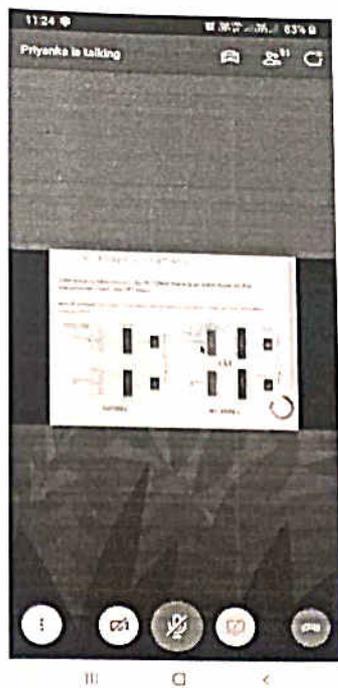

This webinar was conducted to enhance the knowledge about 5G technology, as well as to make aware all about industry demand for future engineers. Through this webinar, we have provided a platform for industry –institute interaction on current technology scenario. This webinar was attended by teachers and students from all over the India. The below mentioned topics are delivered by industry experts from Technopark Business Solution Pvt. Ltd, Navi Mumbai.

**Topics of webinar:**

- Road Map of 2G,3G,4G and 5G
- Technology Comparison.
- What is Need of Advance Communication?
- What is SCFDMA, OFDMA
- What are QAM technologies.
- Lte Architecture.
- What is 5G and Its advantages Over 4G.
- 5G New use case
- Qxdma, Wireshark Tool introduction.

The experts explained details of 5G ie. Fifth generation of cellular technology. They explained that It is designed to increase speed, reduce latency, and improve

**HoD (IT)**

Date: 16.11.2020

To,

The Principal,

Saraswati College of Engineering,

Kharghar, Navi Mumbai.

Subject: Permission Letter for conducting Excel Training.

Respected Mam,

Information Technology Department would like to ask permission for Excel Training to all scoe non teaching staff. We do believe that this training enables our non teaching staff to learn practically and in a better way to understand excel.

Hoping for your kind support mam.

Thanking You,

Yours sincerely,

Mrs. Vrushali Thakur

Co-ordinator.

Permitted  

## Report On – Excel Training

Date: 20.11.2020

**Organizing Department:** Information Technology Department

**Date:** 17<sup>th</sup> and 18<sup>th</sup> November 2020

**Number of Participants:** Day 1: Attendant : 23

Day 2: Clerk and Lab Assistant : 20

**Speaker:** Mrs. Vrushali Thakur

**Objective:**

- To recognize the difference between a formula and a constant.
- Indicate the names and functions of the Excel interface components.
- Enter and edit data.
- Format data and cells.
- To feel comfortable inserting and deleting new rows and columns.
- To develop formulas to simplify calculations.
- Construct formulas, including the use of built-in functions, and relative and absolute references.
- Create and modify charts
- Preview and print work sheets

**Output:**

Staff can start use of excel more efficiently and effectively in clerical work.

### **COURSE CONTENTS**

- Basic of Excel
- Data filtering and sorting
- PivotTable to highlight important figures
- VLookup and Lookup functions
- Show and hide details
- All graphs

# Application of Artificial Intelligence in Mechanical Engineering

## Content

### **Chapter 1 : Introduction**

Introduction to AI and Data Science

AI and Data Science in Mechanical Engineer.

Companies Recruiting Mechanical Engineer for AI and Data Science

Competative exams / Indian Institutes for AI & Data Engineering

### **Chapter 2 : Case Studies in Mechanical Engineering**

Application of AI for Data Prediction Condition Monitoring

Classification Problems

## **Chapter 3 : In Hand Practice**

Basic Regression plots ( Calculation by students )

Working of ANN ( Artificial Neural Network ) with Hand Calculation

Prediction of data by ANN and Regression using MATLAB Software

Case Study in CNC Machining ( Practice by students )

## **Chapter 4 : Industry 4.0**

Case study (Farming)

Case study (Manufacturing)

## Department of Mechanical Engineering

### Report of Faculty Development Program

**Topic: “Application of Artificial Intelligence in Mechanical Engineering”**

Speaker Name: Prof. Paramjit Thakur

Venue: Computer Centre, (First Floor).

Date: 14/6/2021 to 18/6/2021

Time: 2:00 PM to 4:00 PM

No. of Participants: 12

Artificial Intelligence and Machine Learning seems to be the current buzzword as everyone seems to be getting into this subject. Artificial Intelligence seems to have a role in all fields of science and technology. Recognizing these needs a five-day FDP was organised by department of mechanical Engineering which covered major highlights and some in hand practise at beginner level.

The session started with major application of AI and Data science in the field of Mechanical, Production and Industrial engineering. The complete session was broken in four chapters namely introduction, case studies in Mechanical Engineering, in hand practise and finally technical know how on industry 4.0.

Around 12 faculties attended the FDP. The inhand practice consisted of regression plots, ANOVA, etc. Also, Case studies included the application of AI in data prediction and condition monitoring.

**Academic Year 2020-21**

**TRAINING REPORT**

**Faculty Development Program on Professional Ethics for Teachers**

Date: 29.01.2021

Venue: Second Floor. Seminar Hall.

Attendees: **Teaching Staff of SCOE**

Speaker: Prof. Sima Singh

The training program was arranged for the Teaching Staff of SCOE. The Program was attended by approx 22 staff members.

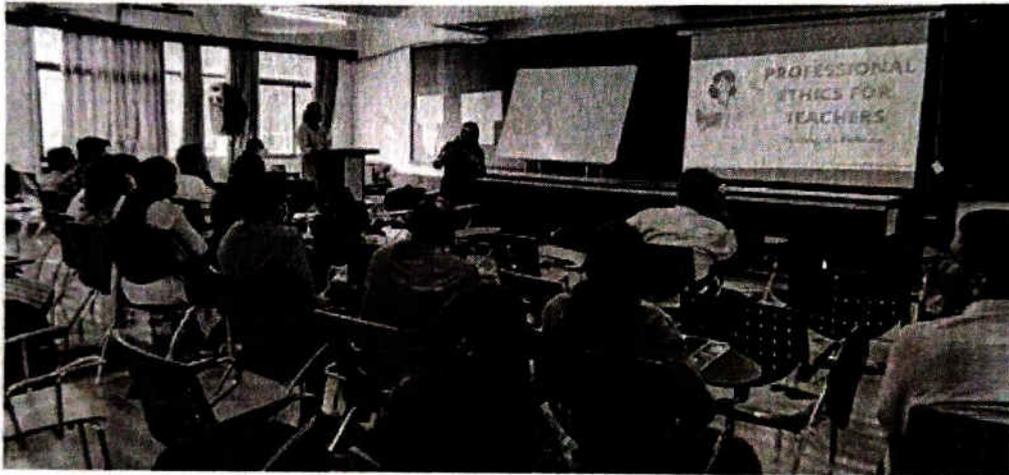

**Course Objective:** The main objective of Teachers Training was to develop a skill to stimulate experience in the taught, under an artificially created environment, less with material resources and more by the creation of an emotional atmosphere. The teacher should develop a capacity to do, observe, infer and to generalize. The motive of the training was the teachers' development of the ability to take care of themselves in adjustment with the physical conditions, healthy adjustment with the social environment, to understand the student psychology so that the teacher is able to appreciate the difficulties experienced by students and to know the causes of individual differences as a result of which they will be able to develop the ability to be a child with children, an adult with the adults, a responsible citizen among the community.

### **Course Content & Course Outcome**

Each teacher, upon entering the teaching profession, assumes a number of obligations, one of which is to adhere to a set of principles which defines professional conduct. These principles are reflected in the following code of ethics, which sets forth to the education profession and the public it serves standards of professional conduct and procedures for implementation. The code establishes principles for ethical best practice, mindfulness, self-reflection and decision-making, setting the groundwork for self-regulation and self-accountability. The course contents are Knowing and upholding the procedures, policies, laws and regulations relevant to professional practice regardless of personal views; Holding oneself responsible for ethical conduct; Monitoring and maintaining sound mental, physical, and emotional health necessary to perform duties and services of any professional assignment; and taking appropriate measures when personal or health-related issues may interfere with work-related duties; Refraining from professional or personal activity that may lead to reducing one's effectiveness within the school community; Avoiding the use of one's position for personal gain and avoiding the appearance of impropriety; Taking responsibility and credit only for work actually performed or produced, and acknowledging the work and contributions made by others. A teacher fulfills the obligation to address and attempt to resolve ethical issues by: Confronting and taking reasonable steps to resolve conflicts between the Code and the implicit or explicit demands of a person or organization; Maintaining fidelity to the Code by taking proactive steps when

having reason to believe that another educator may be approaching or involved in an ethically compromising situation; Neither discriminating nor retaliating against a person on the basis of having made an ethical complaint; Neither filing nor encouraging frivolous ethical complaints solely to harm or retaliate. Cooperating fully during ethics investigations and proceedings.

The session was actively attended by the teaching staff and they enjoyed the session. The training program was concluded by vote of thanks delivered by Prof. Sima Singh who thanked the teaching staff for attending the session.

**A WEBINAR ON “INDUSTRIAL WASTE  
WATER TREATMENT: CHALLENGES  
AND SOLUTIONS”**

**27<sup>th</sup> February, 2021**

**YOUTH**

---

*Ruaiz Maqsood Lala*

## A WEBINAR ON “INDUSTRIAL WASTE WATER TREATMENT: CHALLENGES AND SOLUTIONS”

**Name of event** - A Webinar on “Industrial waste water treatment: Challenges and solutions.”

**Location** - Google meet & YouTube.

**Organized by** - Youth Forum and Student Chapter for Water of IWWA, SCOE and Civil Engineering Students Association (CESA)

**Date**- 27th February 2021

Youth Forum and Student Chapter for Water of IWWA Department of Civil Engineering Saraswati College of Engineering, Kharghar, Navi Mumbai jointly with IWWA Mumbai Centre organized a webinar on Industrial Waste Water treatment: Challenges and Solutions.

Saraswati College of Engineering (SCOE) is a NAAC Accredited Leading engineering institution in Navi Mumbai which is approved by AICTE, affiliated to University of Mumbai and recognized by Govt. of Maharashtra. SCOE aspires to be a leading academic and research organization with a dream and vision of creating a knowledgeable society.

The Indian Water Works Association (IWWA) is a voluntary organization of Professionals concerned with water for Municipal, Industrial & Agricultural uses and wastewater collection, treatment, disposal and reuse. It provides a common platform for the persons and organizations working in this sector to exchange views, share ideas, disseminate information and knowledge about new and appropriate technologies for improving and upgrading the services.

About the Webinar: Industrial wastewater is generated through various industrial processes. It may pollute water bodies if it is discharged into water bodies without adequate treatment. It is necessary to treat industrial wastewater so that it can be reused or disposed safely. This Webinar covers the overview of industrial waste water treatment. It also focuses on the impact of industrial wastewater on receiving environment.

The programme schedule was as such.

Welcome Address: Prof. Roshni John HOD (First Shift), Civil Engineering Dept., SCOE, Kharghar, Navi Mumbai.

About webinar: Dr. Saumya Singh Associate Professor, Civil Engineering Dept., SCOE, Kharghar, Navi Mumbai.

**Key Speakers:**

About IWWA: Mr. Ramesh B. Bambale

Hon. Joint Secretary General, IWWA Member, State Expert Appraisal Committee (SEAC) for Mumbai Metropolitan Region and Konkan Region, Maharashtra. Former Deputy Municipal Commissioner, Municipal Corporation of Greater Mumbai

Dr. T.V.Ramachandra

Indian Institute of Science, Bangalore, Karnataka Co-ordinator, Energy & Wetlands Research Group, Center for Ecological Sciences, Associate Faculty, Centre for Sustainable Technologies, Centre for infrastructure, Sustainable Transportation and Urban Planning.

Mr. K.B. Wadhavane

Hon. Director (Utility), IWWA Team Leader, Yash Engineering Consultants Pvt. Ltd. Former Deputy Hydraulic Engineer, MCGM.

Vote of thanks: Prof. Pooja Somani

HOD (Second Shift) and IWWA Coordinator, Civil Engg. Dept., SCOE.

---

*Ruaiz Maqsood Lala*

The Webinar was initially arranged for limited members only, via Google meet and hence a registration link was passed with the help of Google form. Even after the seats were full, a huge number of students were eagerly waiting to attend this webinar and so the webinar was casted over YouTube(live). The Technical team arranged the entire webinar online and helped this event to achieve the success.

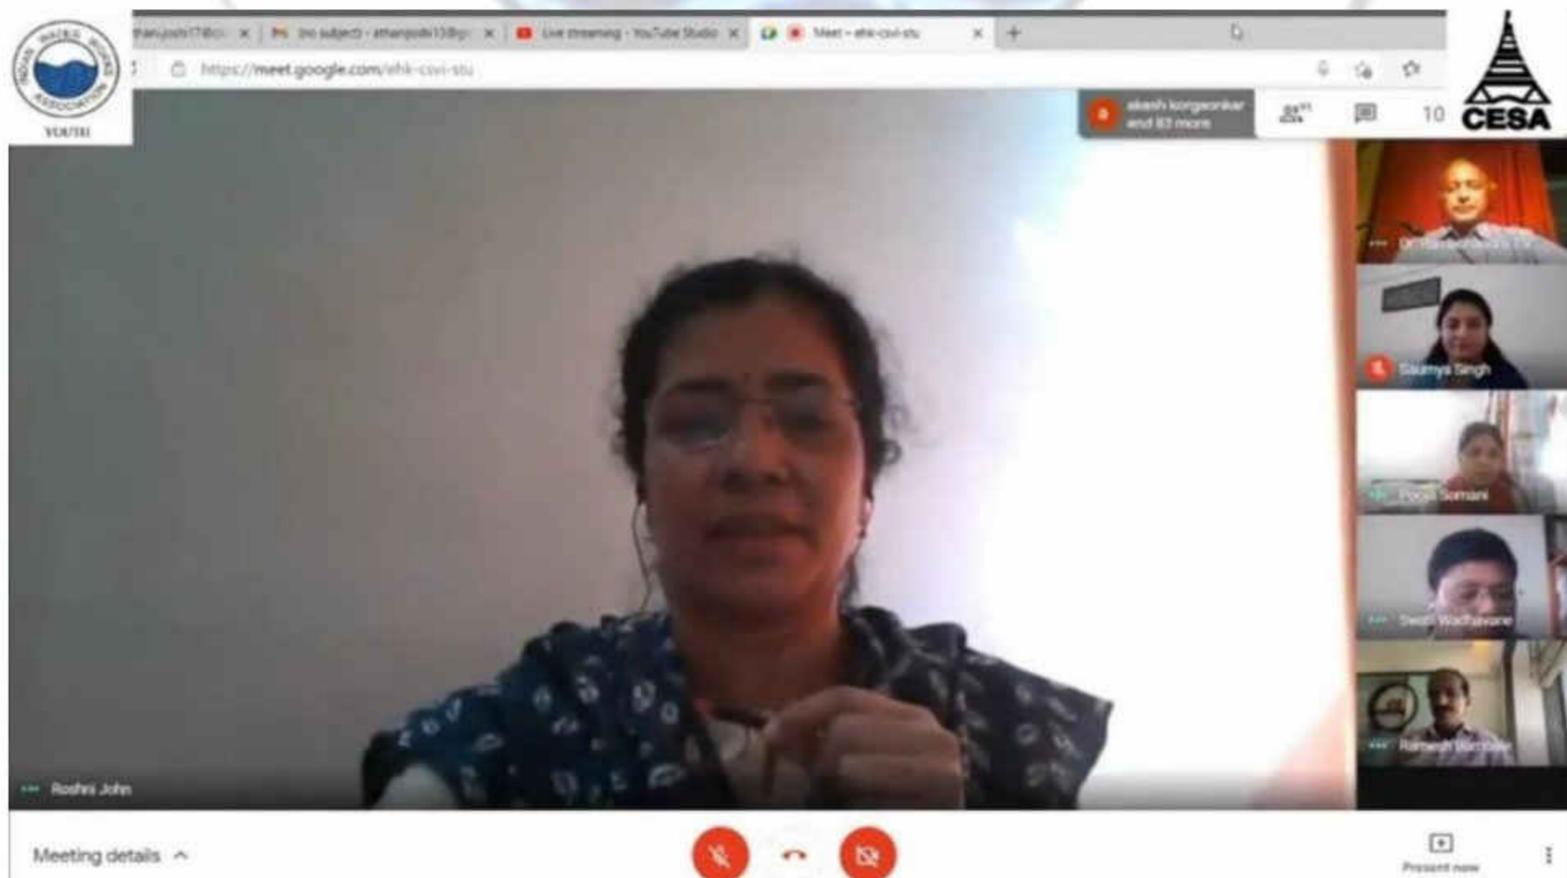

To follow up Dr. Saumya Singh, The Hon'ble, member of IWWA, Mr. Ramesh Bamble took over and gave a brief about the webinar's topic to understand the depth of this essential problem.

The Key speakers from IWWA, Mr. K. B. Wadhavane & Dr. T. V. Ramachandra shed light on the challenge and the solutions to uplift the coming generation. The Webinar was full of knowledge and presence. The entire webinar was carried out smoothly and with ease. The total number of participants who attended the webinar via Google meet were registered to 100 people only and yet the total number of views on YouTube are more than one thousand and counting.

The webinar consisted of the Introduction, desired treated effluent quality of CETP, Case study of Dombivali phase I, Sludge handling, case study of CETP at Vapi, Gujrat followed by the primary and secondary treatment- CETP at Vapi itself and many more appealing topics were discussed.

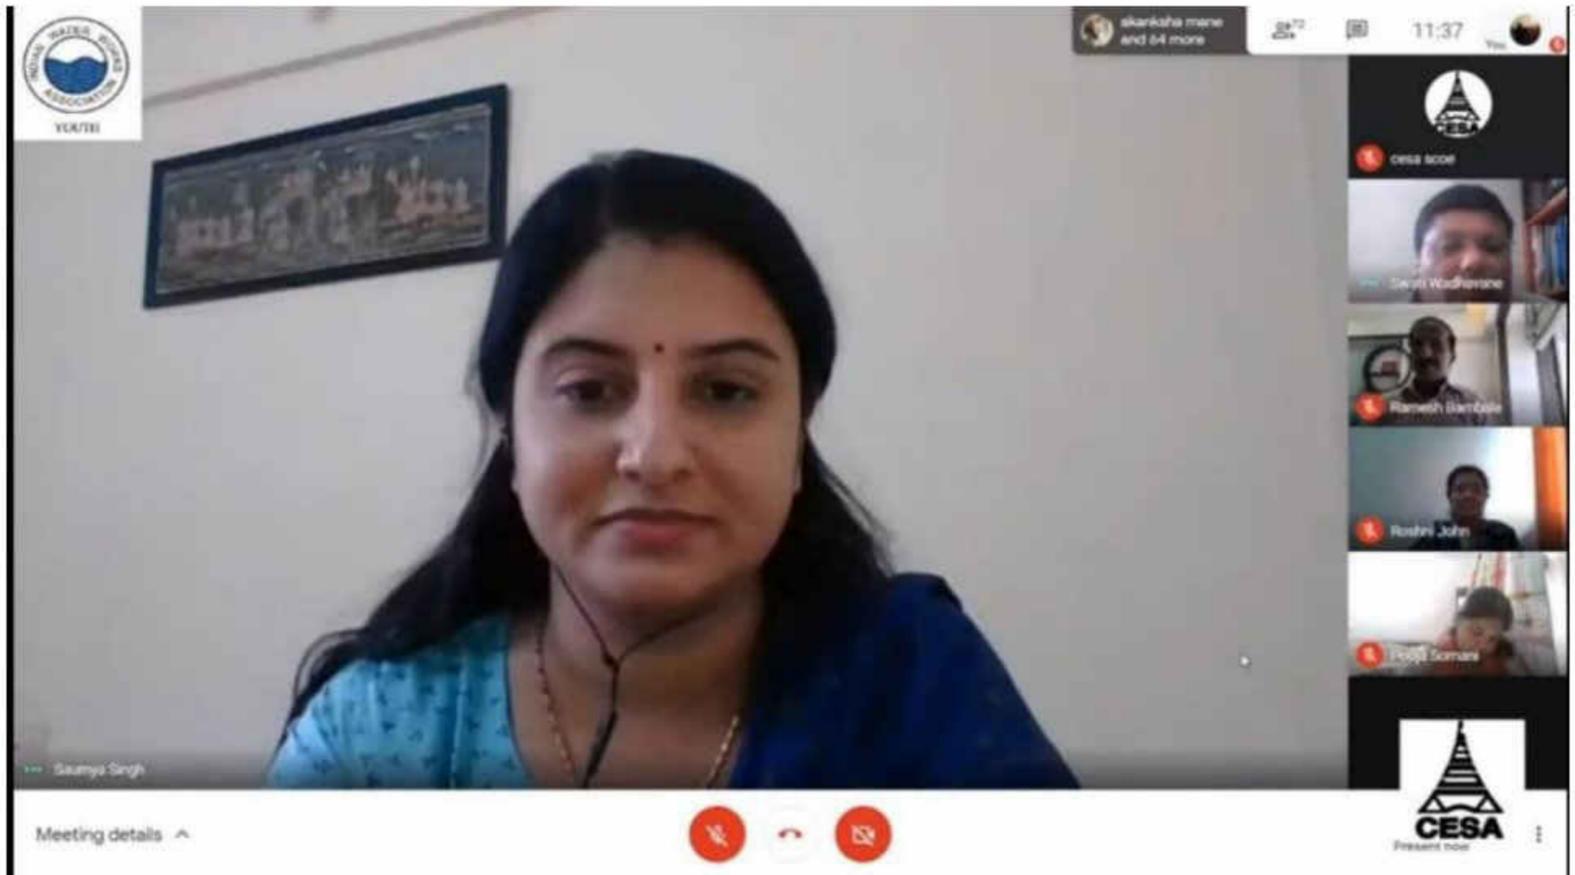

For the vote of thanks, the HOD of 2nd shift, Prof. Pooja Somani stepped up and successfully concluded the webinar. At the end of the webinar, the technical team forwarded a Google form link which included questions regarding the webinar. Thus, by answering and submitting the Google form, all the participants were rewarded with a digital certificate.

## EXTC DEPARTMENT

Date 07/03/2021

To  
The HOD EXTC  
SCOE Kharghar

Subject-Permission for arranging webinar on 08/03/2021 .

Respected madam

I am Naresh joshi requesting for arranging webinar on 5G planning on 08/03/2021 for our EXTC Students ,so kindly consider our application and do the needful.

Thanking You.

  
COORDINATOR

Kharghar, Navi Mumbai - 410 210.

Kharghar, Navi Mumbai - 410 210.

**Name of event: National Level webinar on: 5G Planning**

**Date:** 8<sup>th</sup> March 2021

**Name of Presenter:** Mrs. Chetan, Mr. Ajeet Singh (MobileComm Pvt. Ltd, Gurgaon)

**Name of Convener:** Dr. Sheetal Bukkawar (Dean, Admin & Student Welfare)

**Name of Coordinator:** Prof. Naresh Kumar Joshi & Prof. Nilesh Patil

**Mode of Conduction:** Online (GoToMeet)

**Number of participants:** 40

5G is the fifth generation of cellular technology. It is designed to increase speed, reduce latency, and improve flexibility of wireless services. 5G technology has a theoretical peak speed of 20 Gbps, while the peak speed of 4G is only 1 Gbps.

5G also promises lower latency, which can improve the performance of business applications as well as other digital experiences (such as online gaming, video conferencing, and self-driving cars).

While earlier generations of cellular technology (such as 4G LTE, 3G and 2G) focused on ensuring connectivity, 5G takes connectivity to the next level by delivering connected experiences from the cloud to clients. 5G networks are virtualized and software-driven, and they exploit cloud technologies.

This webinar conducted to enhance the knowledge about 5G technology, also aware about what is industry demand for future engineer. So through this webinar we have provided industry –institute platform for wide discussion on current technology scenario. This webinar is widely attended teachers and students across the India. The below mentioned topics are delivered by industry expert.

**Topics of webinar:**

- Road Map of 2G,3G,4G and 5G
- Technology Comparison.
- What is Need of Advance Communication.

- What is SCFDMA, OFDMA
- What is QAM technologies.
- Lte Architecture.
- What is 5G and Its advantages Over 4G.
- 5G New use case
- Qxdma, Wireshark Tool introduction.

## EVENT PICTURES:

The screenshot shows a Zoom meeting interface. The main content area displays a slide with the following text:

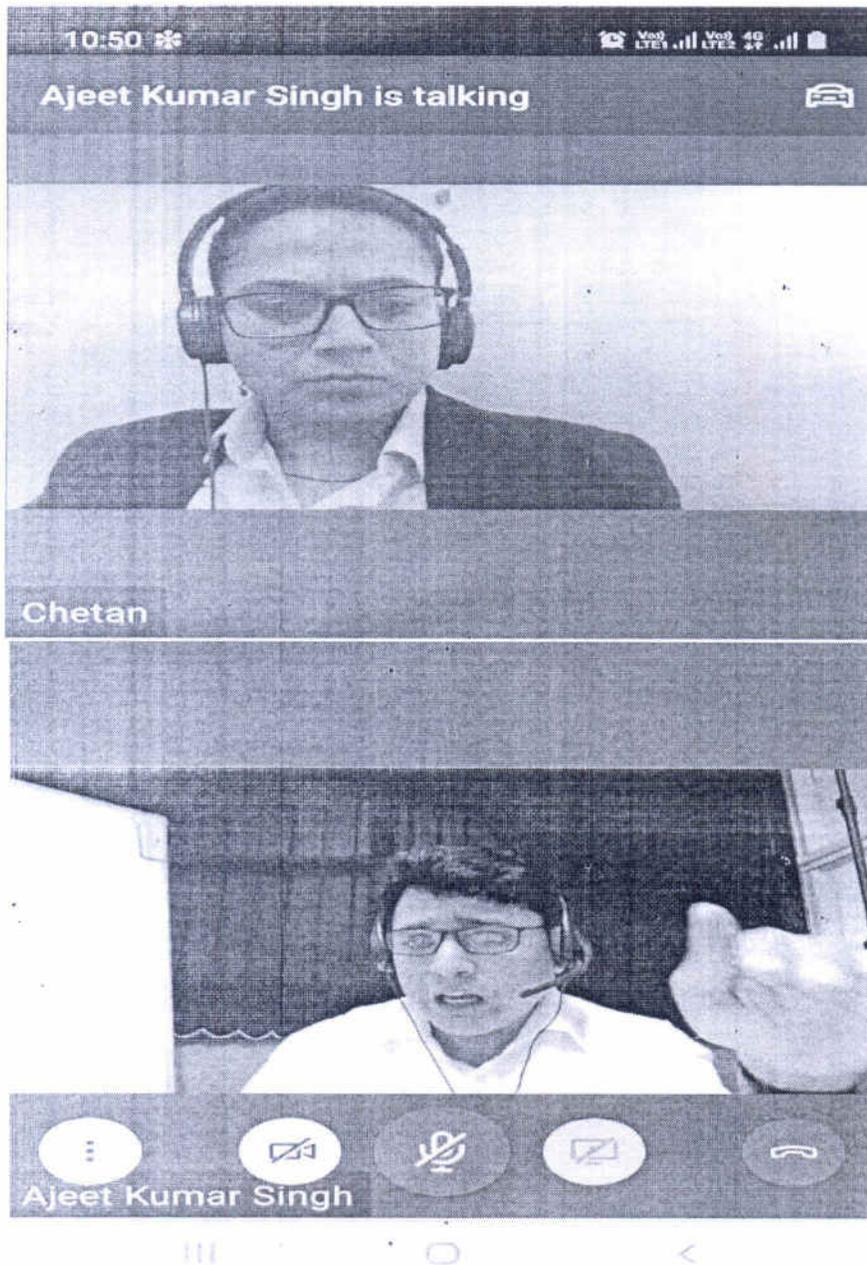

**CONTENTS:**

- Road map of 2G, 3G, 4G and 5G.
- What is SCFDMA & OFDMA
- Adaptive modulation technique - QAM
- LTE & 5G architecture
- What is 5G and its advantages over 4G
- 5G use-cases.

On the right side of the interface, there is a 'PEOPLE' list with 22/251 participants:

- Suvarna Balu Chape
- Tanay Kherde
- Tejal Salunke
- Tejaswini Sonuwan
- TUSHAR VJAYKUMAR CHA...
- UTTAM KOLEBAR
- Vaibhav Bankar
- Vaishali Jadhav
- Vaishnavi manoj
- Vignesh Sushil Chavan
- Vinayak Dixit
- Yogita Madhav (OFF)

At the bottom right, the meeting ID is 270 059 041 and there is a 'Copy Meeting Link' button.

 (HOD EXTC)

Date: 03/03/2021

To,

The Principal,

Saraswati College of Engineering

Kharghar,

Navi Mumbai.

Subject: Permission for seminar on "How to create Google forms and Microsoft Excel sheets"

Respected Madam,

I, Dr. Sheetal Bukkavar, currently working as a dean administration and student welfare, in your institute would like to request you to please allow us to organize seminar on "How to create Google forms and Microsoft Excel sheets" for Non-teaching staff on 9<sup>th</sup> March 2021 from 1 p.m. to 2 p.m.

So, kindly grant the permission.

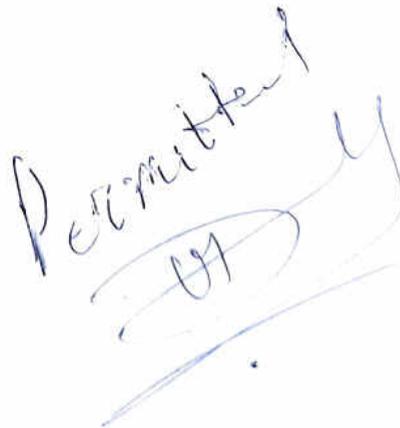

Thanking You.

Your's faithfully,

Dr. Sheetal Bukkavar

Dean Administration and Students Welfare

Kharghar, Navi Mumbai - 410 210.

Date: - 09/03/2021

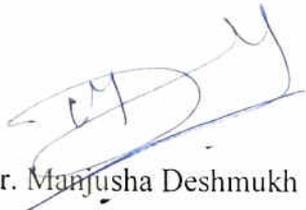

**Report on – Webinar on “How to create Google forms and Microsoft Excel Sheets” by  
Dr. Sheetal Bukkawar**

1. Duration: 9<sup>th</sup> March, 2021 1 p.m. to 2 p.m.
2. Number of Participants: 30 Non-Teaching staff of SCOE
3. Guest Speaker: Dr. Sheetal Bukkawar
  - Dean Administration and Students Welfare SCOE, Navi Mumbai.
  - PhD (E&TC) from Amravati University.
  - Has 19 years of experience in Teaching.
4. Objective: To provide non-teaching staff an opportunity to learn and Gain knowledge and insights on computer skills such as creation of Google forms and Excel sheets.

To cope up with online teaching and administration work, this workshop has been specifically organized for nonteaching staff. In this workshop, the detailed procedure of creating Google forms which are required for various data collection purposes are explained and hands-on session is taken. All participants also tried creating and excel sheets and various options available in excel sheet required for proper documentation. This online webinar will surely be helpful to all the participants for their day to day clerical work.

# ONE DAY WORKSHOP ON AUGMENTED REALITY

A person wearing AR glasses is shown in a dark environment. The glasses project a 3D model of a car onto the floor. The person is looking at the car model.

**AN INDUSTRY 4.0 INITIATIVE**

**GUEST: DR RAJESH BUKTAR,  
PROFESSOR, SPCE, MUMBAI**

**DATE: 20TH MARCH 2021  
(FULL DAY WORKSHOP)**

**REGISTRATION FEES: Rs 250/-**

**LIMITED SEATS ONLY**

## **ABOUT AUGMENTED REALITY WORKSHOP**

Augmented Reality (AR) is a new technology. This technology helps the real & virtual world to co-exist together. This technology finds applications in various areas. This workshop can be a starting point to any one who is interested in carrying out Research & developing applications in AR. Participants will be exposed to the Software & Hardware used in Augmented Reality. This workshop will help the participant's understand, How AR can be leveraged in Education as well as in Automobile & Auto Component industries.

Date: 20th March 2021

## Report

On

### Augmented Reality and Digital Twin

A digital twin is a virtual representation that serves as the real-time digital counterpart of a physical object or process. Though the concept originated earlier (attributed to Michael Grieves, then of the University of Michigan, in 2002) the first practical definition of digital twin originated from NASA in an attempt to improve physical model simulation of spacecraft in 2010. Digital twins are the result of continual improvement in the creation of product design and engineering activities. Product drawings and engineering specifications progressed from handmade drafting to computer aided drafting/computer aided design to model-based systems engineering.

- **Automotive industry**

The automobile industry has been improved by digital twin technology. Digital twins in the automobile industry are implemented by using existing data in order to facilitate processes and reduce

marginal costs. Currently, automobile designers expand the existing physical materiality by incorporating software-based digital abilities. A specific example of digital twin technology in the automotive industry is where automotive engineers use digital twin technology in combination with the firm's analytical tool in order to analyze how a specific car is driven. In doing so, they can suggest incorporating new features in the car that can reduce car accidents on the road, which was previously not possible in such a short time frame.

### **The characteristics of digital twin technology**

Digital technologies have certain characteristics that distinguish them from other technologies. These characteristics, in turn, have certain consequences. Digital twins have the following characteristics.

- **Connectivity**

One of the main characteristics of digital twin technology is its connectivity. The recent development of the Internet of Things (IoT) brings forward numerous new technologies. The development of IoT also brings forward the development of digital twin technology. This technology shows many characteristics that have similarities with the character of the IoT, namely its connective nature. First and foremost, the technology enables connectivity between the physical component and its digital counterpart. The basis of digital twins is based on this connection, without it, digital twin technology would not exist. As described in the previous section, this connectivity is created by sensors on the physical product which obtain data and integrate and communicate this data through various integration technologies. Digital twin technology enables increased connectivity between organizations, products, and customers. For example, connectivity between partners in a supply chain can be increased by enabling members of this supply chain to check the digital twin of a product or

asset. These partners can then check the status of this product by simply checking the digital twin.

Also, connectivity with customers can be increased.

Servitization is the process of organizations that are adding value to their core corporate offerings through services. In the case of the example of engines, the manufacturing of the engine is the core offering of this organization, they then add value by providing a service of checking the engine and offering maintenance.

- **Homogenization**

Digital twins can be further characterized as a digital technology that is both the consequence and an enabler of the homogenization of data. Due to the fact that any type of information or content can now be stored and transmitted in the same digital form, it can be used to create a virtual representation of the product (in the form of a digital twin), thus decoupling the information from its physical form. Therefore, the homogenization of data and the decoupling of the information from its physical artifact, have allowed digital twins to come into existence. However, digital twins also enable increasingly more information on physical products to be stored digitally and become decoupled from the product itself.

As data is increasingly digitized, it can be transmitted, stored and computed in fast and low-cost ways. According to Moore's law, computing power will continue to increase exponentially over the coming years, while the cost of computing decreases significantly. This would, therefore, lead to lower marginal costs of developing digital twins and make it comparatively much cheaper to test, predict, and solve problems on virtual representations rather than testing on physical models and waiting for physical products to break before intervening.

Another characteristic that can be observed, is the fact that digital twin technologies leave digital traces. These traces can be used by engineers for example, when a machine malfunctions to go back and check the traces of the digital twin, to diagnose where the problem occurred. These diagnoses can in the future also be used by the manufacturer of these machines, to improve their designs so that these same malfunctions will occur less often in the future.

- **Modularity**

In the sense of the manufacturing industry, modularity can be described as the design and customization of products and production modules. By adding modularity to the manufacturing models, manufacturers gain the ability to tweak models and machines. Digital twin technology enables manufacturers to track the machines that are used and notice possible areas of improvement in the machines. When these machines are made modular, by using digital twin technology, manufacturers can see which components make the machine perform poorly and replace these with better fitting components to improve the manufacturing process.

**Name of event** - A Webinar on "Civil Engineering and Infrastructure Development."  
**Location** - Google meet & YouTube.  
**Organized by** - CESA(Civil engineering students association)  
**Date**- 22nd March 2021.

### Event summary

The Civil engineering students association (CESA) of Saraswati College of Engineering, Kharghar, Navi Mumbai organized a webinar on; 'Civil Engineering & Infrastructure Development.' As we all are aware that civil engineers are responsible for the growth, development and advancement of Mega-structures and different types of civil works, hence this webinar shed a light on this important topic to guide the upcoming, next generation civil engineers.

Saraswati College of Engineering (SCOE) is a NAAC Accredited Leading engineering institution in NaviMumbai which is approved by AICTE, affiliated to University of Mumbai and recognized by Govt. of Maharashtra. SCOE aspires to be a leading academic and research organization with a dream and vision of creating a knowledgeable society.

**The programme schedule was as such.**

**Welcome Addresser: Jt. Event manager of CESA Akanksha Mane.**

**Key Speaker: Dr. Ajaykumar R. Kambekar**  
M.Tech. (Civil Engg.-IITB), Ph.D. (Civil Engg.-IITB)  
Associate Professor, Department of Civil Engineering  
Currently Chairman PG Programmes, Former Dean Academics and Head CED  
Bhartiya Vidya Bhavans, Sardar Patel College of Engineering,  
(An Autonomous Institute affiliated to University of Mumbai)  
Andheri (West), Mumbai 400 058, Maharashtra, India

Vote of thanks: **Prof. Pooja Somani**  
HOD (Second Shift), Civil Engg. Dept., SCOE.

The Webinar was arranged for the students of Saraswati College of engineering, via an online platform, Google meet to attend this webinar and it was also casted over YouTube(live). The Technical team arranged the entire webinar online and helped this event to achieve the success.

Dr. Ajaykumar R. Kambekar began the webinar by introducing what the development in civil engineering and infrastructure means and then moved onto the solid and water waste management, how infrastructure is the key development to the upliftment of our society and other other country.

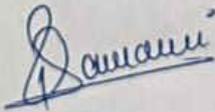

The webinar covered a lot of interesting and important topics:

- Solid and water waste management
- Infrastructure as the key role in development of the country
- Impact of infrastructure in the development of the country
- Indian market overview
- Construction industrial potential
- Infrastructure in Railways, Airways and Pipelines
- Role of civil engineers in infrastructure development
- Smart City features
- Population vs GDP
- Ports in India
- Speed breakers of time/cost overrun of projects
- Key infrastructure signpost critical for demand standpoint
- Growth and progression of NHAI construction
- Summary of projects under sagarmala
- Recent development and conclusion.

As all the key points were splendidly covered by Dr. Ajaykumar R. Kambekar, the webinar was followed for the vote of thanks, the HOD of 2nd shift, Prof. Pooja Somani stepped up and delightful concluded the webinar.

Student of CESA thank all the staff and the students who were present in the webinar and we promise to bring more of these webinars full of experience and knowledge.

## **EXTC DEPARTMENT**

Date 14/01/2019

### **NOTICE**

All staff of EXTC department are here by informed that, we are arranging “International Conference on sustainability development with recent trends & Advances in engineering to support Make in India” initiative [ICSRTAE-2021] on 7th May 2021, all interested staff can give their name to Coordinators (Prof. Rajashri Narwade, Prof. Sneha Burnase).

A handwritten signature in blue ink, appearing to be 'R. Narwade', is written over a horizontal line.

**HOD EXTC**

## EXTC DEPARTMENT

Date 06/05/2021

**To**

The HOD Madam,

**Subject-** Permission for “International Conference on sustainability development with recent trends & Advances in engineering to support Make in India” initiative [ICSRTAE-2021] on 7th May 2021.

**Respected madam,**

We are arrainging “International Conference on sustainability development with recent trends & Advances in engineering to support Make in India” initiative [ICSRTAE-2021] on 7th May 2021 for all our and other college’s EXTC students ,so kindly give the permission.

**Note:** Attached is the boucher for [ICSRTAE 2021]

**Thanking You.**

**Coordinators:** (Prof. Rajashri Narwade, Prof. Sneha Burnase).

**HOD EXTC**

# International Conference on Industry 4.0 - Advanced Information and Communication Technologies

## About SCOE

Saraswati College of Engineering is a leading Engineering Institute, Established in the year 2004 by Hon. Prithvirajji Deshmukh and Mrs. Vrushali Deshmukh. The college is Approved by AICTE, New Delhi and affiliated to University of Mumbai, India.

## Objective of the Conference

ICAICT is a premier International Conference being organized on 7<sup>th</sup> May 2021 at Kharghar, Navi Mumbai, India. Emergence of various technologies in the modern time has become inevitable. We have to be competent enough to compete with the present and the future global market which is dynamic in nature and as touched high scales of excellence. Hence, a conference on ICAICT 2021 will result in an improved awareness about the implications of the rise of new digital industrial technology, known as ICAICT 2021. The conference also aims at encouraging the faculty for engaging in more and more research in particular and creating an environment promoting research in every field of ICAICT 2021.

## Registration Fees

CATEGORY	INDIAN DELEGATES	FOREIGN DELEGATES
Students/ Research Scholars	Rs. 1,000/-	14 \$
Academician	Rs. 1,200/-	17 \$
Delegates from Industry	Rs. 2,000/-	28 \$

## Important Dates

Submission of Full Paper	April 7 <sup>th</sup> , 2021
Notification of Acceptance	April 15 <sup>th</sup> , 2021
Last Date of Registration	April 22 <sup>th</sup> , 2021

Submission should be made via Easy Chair

The submission link for ICAICT 2021 is:

<https://easychair.org/conferences/?conf=icaict2021>

For more details visit website:

[www.sce.edu.in/ICAICT](http://www.sce.edu.in/ICAICT)

Or Email ID: [icaict2021@gmail.com](mailto:icaict2021@gmail.com)

Mention the track name for your paper in header of the paper

Selected quality papers will be published in SCOPUS Indexed Journal and Web of Science Journals subject to acceptance (\*with applicable fees)

## Patrons

Hon. Prithvirajji. S. Deshmukh

Hon. Vrushali. P. Deshmukh

## Conference Chair

Dr. Manjusha Deshmukh

## Program Chairs

Dr. Sheetal Bukkavar

Prof. Suhasini Parvatikar

## Executive Committee

Prof. Vaishali Jadhav

Dr. Madan Jagtap

Prof. Deeksha Kumar

Prof. Neha Mahajan

Prof. Sujata Bhairnalkar

Dr. Sayali Choudhari

## Organizers

Prof. Ragini Sharma

Prof. Rajashri Narwade

Prof. Sneha Burnase

Prof. Rina Bora

Prof. Arpita Saxena

Prof. Navdeep Bagga

## International Advisory Committee

Mr. Eugen Turcanu, Business Objective Predictive Analysis Expert, United Arab Emirates.

Mr. Mohammed Al Nabtiti, Business Technology and Innovation, Bee'ah, United Arab Emirates.

Dr. Nahuel Micone, Mechanical Equipment Engineer, Techint Engineering & Construction, Argentina.

Dr. Sinora Avraham, Sr. Computer Vision Engineer at Memomi Labs Inc., Israel.

Dr. Dharmendra Sharma Distinguished, Professor, Computer Science, University of Canberra, Australia.

## Advisory Committee

Dr. Suhas Pednekar, Vice-Chancellor, University of Mumbai

Dr. Suresh Ukarande, Principal, KJSIEIT.

Dr. Uttam D. Kolekar, Principal, APSIT.

Dr. Jagdish. W. Bakal, Principal, SSJCOE.

Dr. Satish Dewane, Principal, KABGTCOE, Nashik

Dr. Sudhirkumar Sawarkar, Principal, DMCOE.

Dr. Nupur Giri, Professor & HOD Computer dept., VESIT.

Dr. Ravindra Kumar Yadav, Professor & HOD ECE, RKGIT, Ghaziabad

Dr. Dinesh Yadav, Joint Secretary, IEEE Rajasthan Subsection, Manipal University Jaipur.

We welcome submissions in the following areas:

## Track 1 – Artificial Intelligence & Intelligent Machining

- Deep Learning
- Neural Networks
- Fuzzy Logic
- Expert Systems
- Agents and Multi-Agent Systems
- Natural Language Processing
- Data Mining
- Support Vector Machines
- Ambient Intelligence
- Sentimental Analysis
- Human Computer Interaction
- Medical Diagnosis
- Augmented Reality
- Virtual Reality
- Geographic Information

## Track 2– Cloud Computing & Big Data Analysis

- Quantum Computing
- Cloud Computing
- Grid Computing
- Internet of Things (IOT)
- Data Analytics
- Big Data

## Track 3 – Communication Networks & Cyber Security

- Cyber Security
- Wireless/ Mobile Communication
- 3G/4G/5G Network Evolutions
- Sensing and Sensor Networks
- Open Spectrum Solutions
- Cognitive Radio
- Mobile Apps

## Track 4 – E- Learning

- E- Learning Tools
- Educational Systems Design
- Delivery Systems and Environment
- E- Learning Organisational Issues
- Cognitive Radio
- Mobile Apps

## Track 5 – Biotechnology and Healthcare System

- AI in Medical Field & Dental
- Block Chain for Healthcare
- Internet of Medical Things (IOMT)
- Predictive Analysis
- Drug Management
- Smart Biosciences
- Medical Robots

**Note: The topics are not limited and can be extended in the given tracks.**

**The paper must be conforming to IEEE double column paper format.**

Date:7/5/2021

**Inauguration Ceremony**

SR. NO	INDIAN TIME	DESCRIPTION	
1	10.00A.M.-10.10A.M.	Welcome Speech	Prof. Pooja Somani (HOD ,Civil Shift II)

## **Report on “International Conference on advance information and communication Technologies[ICAICT-2021]”**

Saraswati College of Engineering is one of the renowned institutes in Mumbai University in terms of academics, publications and Research & Development activities. The college is organised Two International conference for Comp/IT/Extc titled as “**International Conference on advance information and communication Technologies[ICAICT-2021]**”& Civil/Auto/Mech titled as “**International Conference on sustainability development with recent trends & Advances in engineering to support “Make in India” initiative[ICSRTAE-2021]**” on 7<sup>th</sup> May 2021. The event is expected to provide an interactive platform to engineers ,scientist ,teachers, researchers & students in areas of Artificial intelligence, Machine Learning, Cloud Computing ,Cyber Security, Biotechnology & healthcare for comps/IT/Extc and also Green Technology, Sustainable Construction & manufacturing, Innovative business process, Next Generation Technologies for Civil/Auto/Mech. The theme of conference is chosen in fields of recent trends which have changed life. Dr. Murali Krishna Iyyanki was the keynote speaker and he explained AI and Geospatial Ai based Approaches in Civil and Public health engineering. In ICAICT-2021 Dr. Sinora Avraham, Team Leader of Architecture Product/Artificial Intelligence at Nir Vered Engineering | Israel was invited as keynote speaker and she explained various aspects of Artificial intelligence in medical fields related to the current situation. Dr. Sinora Avraham, also worked as Sr. Computer Vision Engineer/ Fashion–AR AI Engine Memomi Research Labs /Israel/From 2018 – To 2020. Here she developed physics and pixel based algorithm, developed a realistic and personalized augmented reality experience on all platforms.

She also worked as, Algorithm Engineer/ Healthcare Product CMS Better life [Israel] from 2017–To 2018 Solutions for seniors and dependents. Here she developed Artificial Intelligence software supporting social worker hospitals in

This screenshot shows a Zoom meeting window. The main content is a slide with a light blue background. The slide title is "AI and GeoSPATIAL AI based approaches in Civil and public health engineering". Below the title, a list of AI-related terms is presented in bold, uppercase letters: ANN, MACHINE LEARNING, DEEP LEARNING, EXPERT SYSTEMS, SWARM INTELLIGENCE, RISK ASSESSMENT METHODS, and GENETICALGORITHMS ETC.,. At the bottom right of the slide, the website "CIVILDIGITAL.COM" is displayed in blue. On the right side of the Zoom window, there is a video feed of a man with glasses, wearing a dark jacket, identified as "Murali Krishna Iyanki". The Zoom interface includes a "Recording" indicator in the top left and a system tray at the bottom with a search bar and system clock showing 10:32 on 01-05-2021.

### A Review of Traffic Congestion Prediction Using Artificial Intelligence

The predictive abilities of AI are also of huge benefit to traffic management systems as they are able to recognize the physical and environmental conditions that can lead to or be the result of heavier traffic flow and congestion.

As an example in India, the traffic police has a computerized monitoring system which uses AI to predict the traffic flow and congestion. Yes, this amazing technology could help in many ways.

Participant list:

- Murali Krishna R...
- Apurva Ram...
- Usha Jommi
- Dr. Shreya S...

Murali Krishna Iyanki is talking...

New techniques for data acquisition and processing are transforming the way civil and environmental systems are monitored, understood and managed.

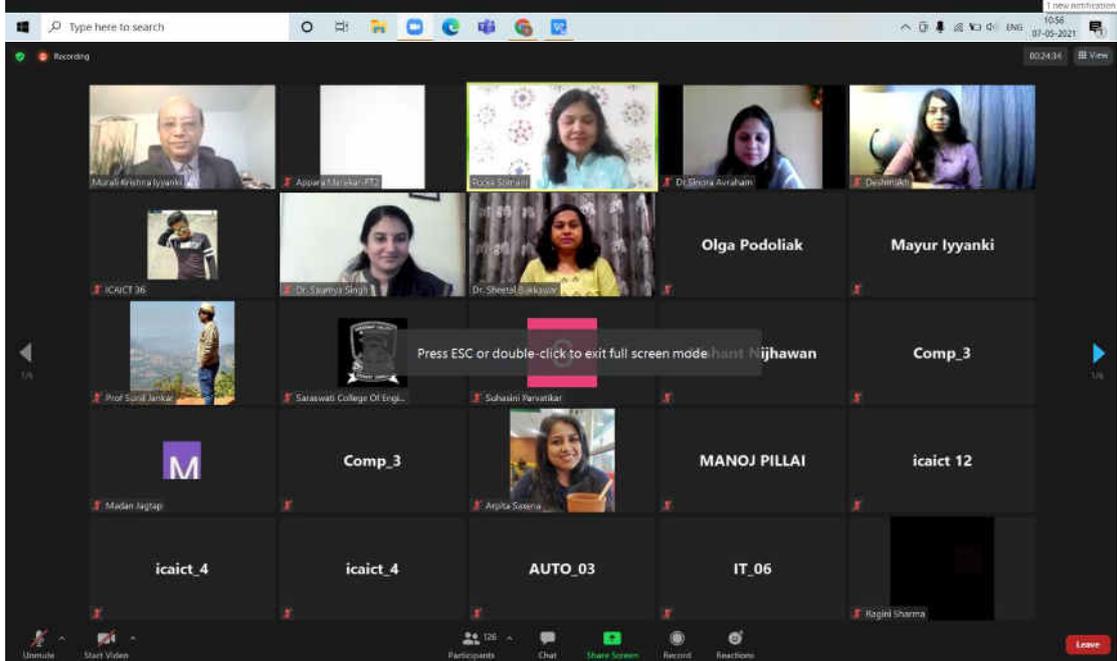

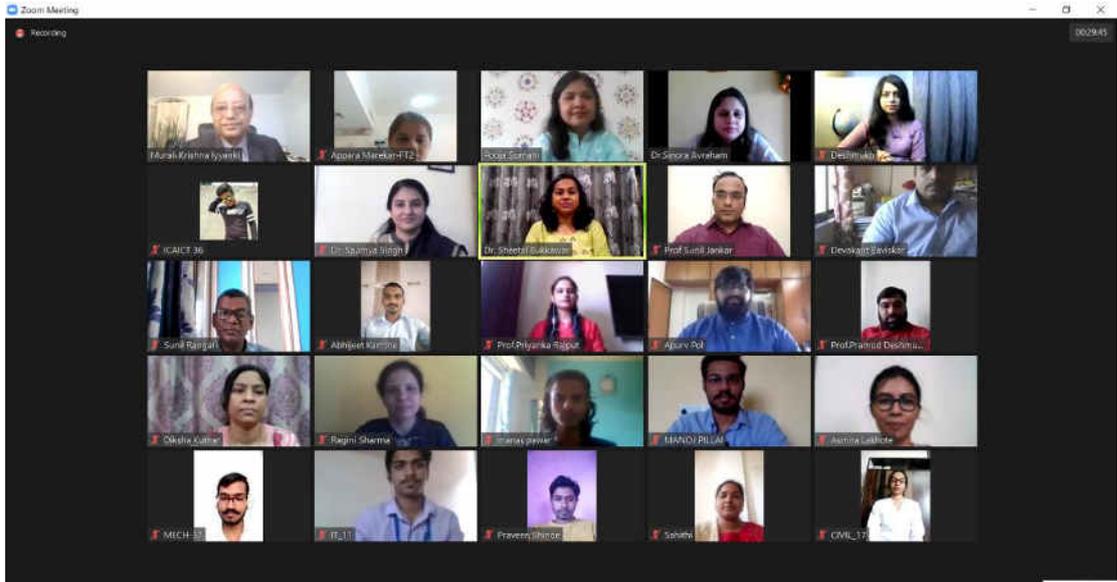

New science is emerging from this unprecedented amount of available data.

Engineers are tasked with selecting and integrating sensors, interpreting heterogeneous data merging physical and statistical information, developing ways to communicate the results, and applying the outcomes to improve our systems.

Students need to pursue Civil and Environmental Engineering Data Analytics to explore the entire data life-cycle related to CEE systems, from data acquisition to analysis and application.

# REPORT

*of the*

## **Faculty Development Program**

*on*

## **PYTHON Programming**

Organized by

**DEPARTMENT OF AUTOMOBILE ENGINEERING**

Dated: 21<sup>st</sup> to 25<sup>th</sup> June 2021

Speaker: *Prof. Vishnudas A.V.L. Chodankar*

## **DETAILS OF THE PROGRAMME**

Organized by: Department of Automobile Engineering

Conducted by: Mr. Vishnudas A.V.L. Chodankar (Assistant Prof from the Dept. of Automobile)

Conducted for/Participants: Faculties from the Department of Automobile and Mechanical Engg.

Software used: ANACONDA – Jupyter Notebook

Venue: Computer Science Lab, 1<sup>st</sup> floor

# Syllabus

1. Chapter 1 - Introduction
2. Chapter 2 - Modules, Comments & Pip
3. Chapter 3 - Variables & Data Types
4. Chapter 4 - Strings
5. Chapter 5 - Lists & Tuples
6. Chapter 6 - Dictionary & Sets
7. Chapter 7 - Conditional Expressions
8. Chapter 8 - Loops in Python
9. Chapter 9 - Functions & Recursion
10. Project 1 - Snake, Water, Gun Game
11. Chapter 10 - File I/O
12. Chapter 11 - Object Oriented Programming
13. Chapter 12 - Inheritance
14. Project 2 - The Perfect Guess
15. Chapter 13 - Advanced Python 1
16. Chapter 14 - Advanced Python 2
17. Project 3 - Library Management System

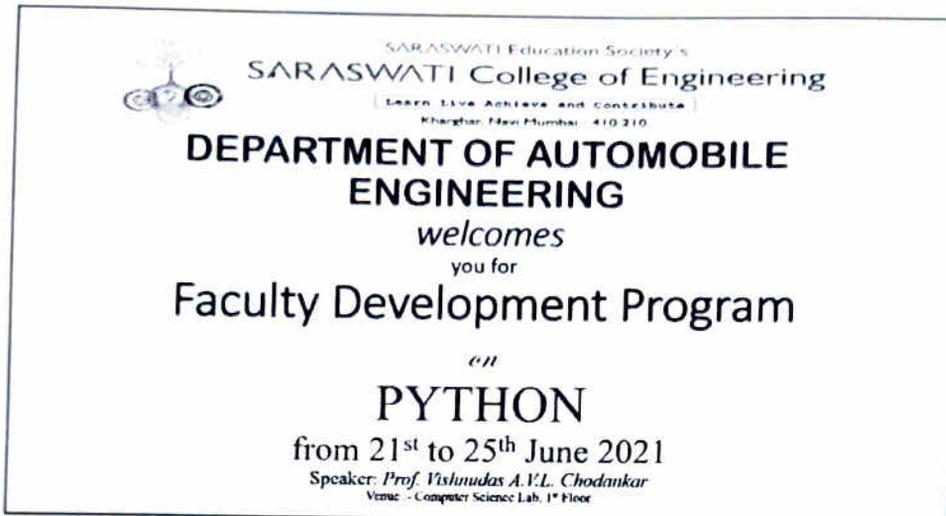

Prof. Vishnudas A.V.L.C

## Division of Syllabus for the Programme

DATES	SYLLABUS COMPLETED
DAY 1 – 21 <sup>st</sup> June 2021	Chapter 1, Chapter 2, Chapter 3, Chapter 4
DAY 2 – 22 <sup>nd</sup> June 2021	Chapter 5, Chapter 6, Chapter 7
DAY 3 – 23 <sup>rd</sup> June 2021	Chapter 8, Chapter 9, Project 1
DAY 4 – 24 <sup>th</sup> June 2021	Chapter 10, Chapter 11, Chapter 12, Project 2
DAY 5 – 25 <sup>th</sup> June 2021	Chapter 13, Chapter 14, Project 3

To,  
The Principal Madam  
Saraswati College of Engineering  
Kharghar, Navi Mumbai.

Subject: Permission to conduct Leadership Program .

Respected Madam,

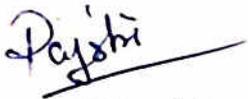

Reference to above mentioned subject, I am as a Human Resource Executive of the organization would like to request you that, kindly permit me to conduct Leadership Program for all head of the departments as well for all Dean's.

I am requesting you to conduct the program as a Leader of the institute.

Hope you grant the request.

Thanking you,

Yours truly,

Rajshri Tambe  
HR Executive  
SCOE

Permitted  

Date : 19.03.2021

## Leadership Program "Cultivating a Positive Attitude"

Leaders should always be a role model for fellow subordinates. Human Resource department have organized the Leadership program for all the Head of the departments as well as Dean.

Human Resource Department was requested Principal Madam to conduct the program.

Ma'am was agreed and conducted the program. She has given PPT presentation with some live examples to improve leadership skills or to bring leadership skills in a person.

All presenters' were learned so many new perspective to work as a leader. It was an interactive session. All have taken participation by giving their inputs as well by giving some examples of their experiences.

The program is ends well with positive note as everyone learned something from other and got a new positive outlook to work as a leader.

## REPORT ON FACULTY DEVELOPMENT PROGRAMME

**Title: AICTE EXAMINATION REFORM POLICY.**

**Date: 21/09/2020 Time: 10:00 am to 05:00 pm**

**Venue: Online mode**

**No. of Participants: 110 (Faculties)**

**Trainer: Dr. Manjusha Deshmukh.**

### **Introduction:**

Worldwide adaptation of Outcome-Based Education framework and enhanced focus on higher-order learning and professional skills necessitates paradigm shift in traditional practices of curriculum design, education delivery and assessment. In recent years, worldwide sweeping reforms are being undertaken to bring about essential changes in engineering education in terms of what to teach and how to teach and how to assess. Examinations/student assessments play a very important role in deciding the quality of education.

This policy intends to push the evaluation notches up on the Bloom's taxonomy and examine the learner for higher order cognitive skills to drive critical thinking, creativity and problem solving which have to be the attributes of any technical professional. The academic quality of examinations (question papers) in Indian engineering education system has been a matter of concern for a long time.

### **Objective:**

The objective of this FDP was to make the faculties aware of the latest AICTE examination reform policy. Examination Reforms Policy for alignment of technical education with the global trend of outcome-based learning. The strategies to be adopted to align assessment with the desired student learning outcomes and the necessity of designing question papers to test higher order abilities and skills.

# Course Objectives Writing

Examination  
Reform  
Policy  
2018

Dr Manjusha Deshmukh  
PhD ( Elect. & Tele. Comm. )  
MBA ( Finance & Marketing)

Module No.	Unit No.	Topics	Hrs.
1.0		<b>Digital Image Fundamentals</b>	04
	1.1	Introduction – Origin – Steps in Digital Image Processing , Components, Elements of Visual Perception – Image Sensing and Acquisition, Image Sampling and Quantization – Relationships between pixels, Transformation: Orthogonal, Euclidean, Affine	
	1.2	Color Image Processing: Color Fundamentals Color models.	

**PO 1: Engineering knowledge:** Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialisation for the solution of complex engineering problems.

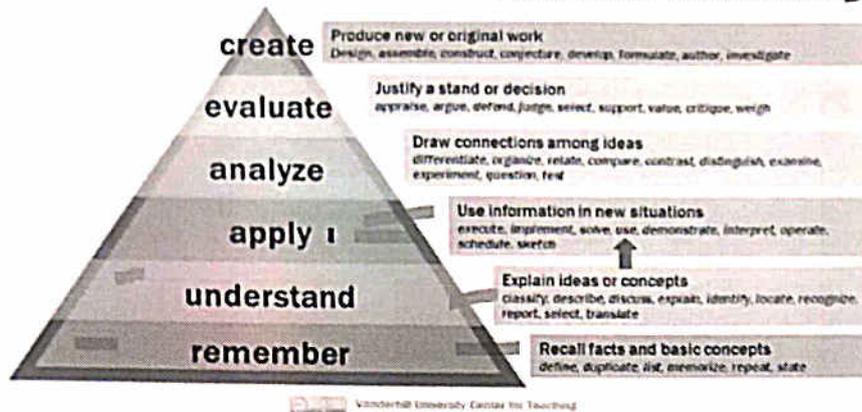

Competency	Indicators
1.2 Demonstrate competence in mathematical modeling	1.2.1 Apply the knowledge of discrete structures, linear algebra, statistics and numerical techniques to solve problems 1.2.2 Apply the concepts of probability, statistics and queuing theory in modeling of computer-based system, data and network protocols.
1.5 Demonstrate competence in basic sciences	1.5.1 Apply laws of natural science to an engineering problem
1.6 Demonstrate competence in engineering fundamentals	1.6.1 Apply engineering fundamentals
1.7 Demonstrate competence in specialized engineering knowledge to the program	1.7.1 Apply theory and principles of computer science and engineering to solve an engineering problem

**AICTE EXAM REFORM POLICY**

PO	Competency	PI	Bloom's Level	CO	Description
PO1	1.1	1.1.1	Level 3 Apply	CO1	Use concept of matrices to solve image processing problems

## Bloom's Taxonomy

### Topics covered:

- Introduction to exam reforms policy.
- Need for OBE and 3 concepts for implementing OBE.
- Understanding Graduate Attributes and Process of adopting OBE framework.
- Bloom's Taxonomy and its use in Designing Assessments.

### Outcomes of the FDP:

This FDP attempts to bring out recommendations for reforms in the examination system to meet challenges of the emerging engineering education landscape.

## REPORT ON FACULTY DEVELOPMENT PROGRAMME

**Title: "CO-PO mapping for University Examination"**

**Date: 16/11/2020 Time: 10:00 am to 05:00 pm**

**Venue: Online mode**

**No. of Participants: 115 (Faculties)**

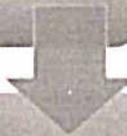

**Trainer: Dr. Manjusha Deshmukh.**

### **Introduction:**

The resource person introduced the concept of outcome-based education and the correlating concepts such as Blooms level, framing the Question paper as per Blooms taxonomy & CO, PO, PSO, PEOs. She also explained the connection of each question prepared mapping to one or more COs which effectively will help to determine the achievement by each student in the tests & University Examination.

**CO - LEVEL**

**ATTAINMENT**

## Sheet No. 8 – CO attainment

### IA-Marks available with you

These were your students IA-I & IA-II Marks as per CO .

Roll No.	Name of Student	IA-I			IA-II		
		Q.1	Q.2	Q.3	Q.1	Q.2	Q.3
		CO1	CO2	CO3	CO4	CO5	CO6
1		2	3	6	4	3	6
2		2	4	6	4	3	7
3		2	3	6	4	3	7
4		3	4	6	4	3	7
5		3	4	6	4	3	7

## Sheet No. 9 – CO level

### IA- Attainment level

- Open CO LEVEL tab.
- Enter CO ATTAINMENT level.

ATTAINMENT LEVEL	
Below 50	NA (Not Attended)
50 to 59	1
60 to 69	2
70 and above	3

Attainment level

COs Attainment level -IA						
CO Attainment	CO1	CO2	CO3	CO4	CO5	CO6
Total Students Attainment	46	59	55	34	68	44
Total Students not Attainment	22	9	13	34	0	24
Total Students	68	68	68	68	68	68
Attainment	67.65	86.76	80.88	50.00	100.00	64.71
Attainment level	2	3	3	1	3	2

### The objectives of the FDP:

1. Framing the Question paper as per Blooms taxonomy & CO, PO, PSO for I.A. exam.
2. To disseminate the information on identifying the attainment of PO, PSO, CO
3. To initiate attainment of PO, PSO, CO at each department.

### Outcomes of the FDP:

1. Faculties able to framing mapping CO's with PO's.
2. Able to measure CO & PO attainment process.

Report on –Seminar on “Time Management ” by Prof. Neha sharma

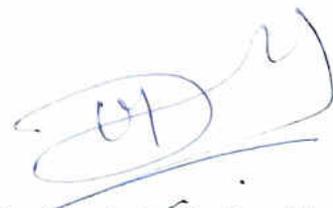

1. Duration: 17<sup>th</sup> November, 2021 2 p.m. to 3 p.m.
2. Number of Participants: 21 Non-Teaching staff of SCOE
3. Guest Speaker: Prof. Neha Sharma
  - Assistant Professor, SCOE, Navi Mumbai.
  - Has 12 years of experience in Teaching.
4. Objective: To make staff aware of time management effectively.

The importance of ‘Time Management’ was also discussed along with a 7-step process to Time Management. Insights were given on the usefulness of Interpersonal Skills at workplace and how to manage time effectively. It is discussed that how, proper time management helps you finish your work faster, you’ll find that you now have more free time as a consequence.

**Title:** CO-PO Mapping for Course Exit form.

**Date:** 24/12/2021 **Time:** 10:00 am to 05:00 pm

**Venue:** Online mode

**No. of Participants:** 117 (Faculties)

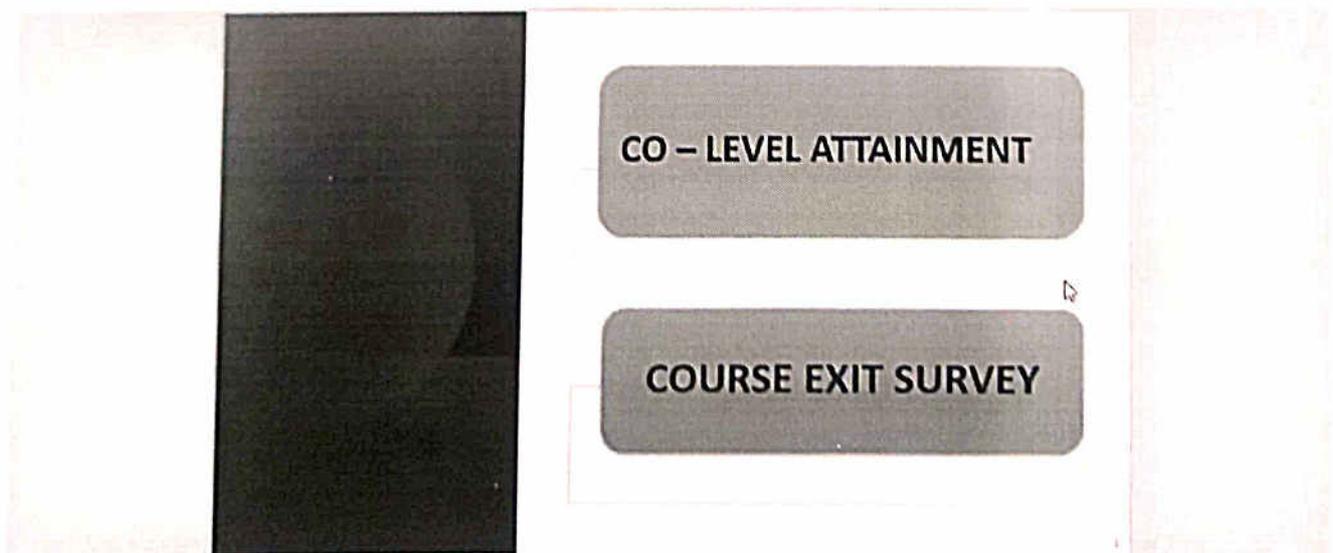

**Trainer:** Dr. Manjusha Deshmukh.

### Introduction:

The course evaluation survey consists of questions that evaluate the level of student's satisfaction with the curriculum and course being taught at a university, college, or school. This sample questionnaire template evaluates and collects feedback from students on their perception of the course, its effectiveness and how much value are students able to derive from it. Use the feedback to address concerns like the teaching style, the course material, and its length. Evaluate courses at the end of the term to improve them for future students. This survey also consists of questions on teacher evaluation and course improvement.

### Objective:

Make the faculties aware of the CO attainment by course exit form feedback.

**Marks Entry :**

- TW/TU Marks of Each Student.

SEAT NO.	Name of Student	IA-AVG	TH END SEM	TH total	TW
		20	80	100	25
		12	50	62	12
		14	53	67	16
		13	54	67	17
		14	51	65	18
		14	55	69	20
		14	53	67	14

**CO ATTAINMENT (EXIT FORM):**

- E.g. Course Exit form ( Response sheet).
- Feedback given by students.

Timestamp	FULL NAME OF THE STUDENT	ROLL NUMBER	E-MAIL	[CO1 - A	[CO2 - Cla	[CO3 - Cl	[CO4 - Un	[CO5 - D	[CO6 - A
				5	5	5	5	5	5
				4	4	4	3	3	3
				5	5	5	5	5	5
				4	4	4	4	4	4
				5	5	5	5	5	5

**Outcomes:**

Course Exit survey provide valuable feedback to the faculties. Such feedback is quite helpful in improving the quality of learning. Based on the CO attainment by course exit form feedback, faculties can plan necessary improvements next times to the same.
