Criteria 7

7.1 Institutional Values and Social Responsibilities

7.1.7 Details of the Software procured for providing the assistance

Non-visual Desktop Access (N V D A) facility for Divyangjan

NVDA allows blind and vision impaired people to access and interact with the Windows operating system and many third party applications.

Major highlights include:

- Support for popular applications including web browsers such as Mozilla Firefox and Google Chrome, email clients, internet chat software, music players, and office programs such as Microsoft Word and Excel

- Built-in speech synthesizer supporting over 50 languages, plus support for many other 3rd party voices

- Reporting of textual formatting where available such as font name and size, style and spelling errors

- Automatic announcement of text under the mouse and optional audible indication of the mouse position

- Support for many refreshable braille displays, including input of Braille via braille displays that have a braille keyboard

- Ability to run entirely from a USB flash drive or other portable media without the need for installation

- Easy to use talking installer

- Translated into more than 50 languages

- Support for modern Windows Operating Systems including both 32 and 64 bit variants

- Ability to run on Windows logon and other secure screens

- Announcing controls and text while interacting with gestures on touch screens

- Optional Telephone Support and comprehensive Training Material available at very low cost

- Enthusiastic and helpful user community
