SCOE provide an inclusive education framework for all students as well for staff which also includes barrier free and disabled (divyangjan) friendly environment in our campus. Lifts, ramps, special toilets/bathrooms as well as specific facilities are provided all over the campus wherever required.

1. Built environment with ramps/lifts for easy access to classrooms.

The Ramps are built in the campus where uneven floor levels are present to provide convenience. Ramps are helpful to push a trolley or wheel chair over a step by negotiating just a few inches of height difference. Utility ramps solve the problem and make wheeled movement between levels very easy. The following ramps were built in college for continence and safety of disabled persons (Divyangjan). The college authorities are sensitive towards the differently abled students or person. Therefore, we at campus provide lift facility and help these students in minimizing their difficulties and making them comfortable in the campus.

4. Assistive technology and facilities for Divyangjan

Assistive technology is assistive tools for people with disabilities. Such technology enhances the functioning and performance of disabled persons. People who have disabilities often have difficulty in teaching and learning process. Therefore, Non-visual Desktop Access (N V D A) facility for Divyangjan is available for persons with disabilities along with one lab attendant who is available to assist the disabled person.

❖ Non-visual Desktop Access (NVDA) facility for Divyangjan

NVDA allows blind and vision impaired people to access and interact with the Windows operating system and many third party applications.

Major highlights include:

- Support for popular applications including web browsers such as Mozilla Firefox and Google Chrome, email clients, internet chat software, music players, and office programs such as Microsoft Word and Excel
- Built-in speech synthesizer supporting over 50 languages, plus support for many other 3rd party voices
- Reporting of textual formatting where available such as font name and size, style and spelling errors
- Automatic announcement of text under the mouse and optional audible indication of the mouse position
- Support for many refreshable braille displays, including input of Braille via braille displays that have a braille keyboard

- Ability to run entirely from a USB flash drive or other portable media without the need for installation
- Easy to use talking installer
- Translated into more than 50 languages
- Support for modern Windows Operating Systems including both 32 and 64 bit variants
- Ability to run on Windows logon and other secure screens
- Announcing controls and text while interacting with gestures on touch screens
- Optional Telephone Support and comprehensive Training Material available at very low cost
- Enthusiastic and helpful user community
