

IETE Activities

Sn.	Activity	Details
1	Technical Workshop	Technical workshop conduction for engineering college students. IETE took technical workshops on online and off-line modes. The objective of our technical workshop is to impart knowledge in emerging technologies to engineering students. Students have options to enroll for career programs also and avail placement opportunities. IETE workshops are delivered on recent trend like in Microcontroller ,Embedded, VLSI, Internet of Things, Digital Signal Processing, Data Science etc.
2	Technical Seminar / Webinar	A Technical Seminar /Webinar Presentation is an important part of the Engineering curriculum along with the Project. A technical presentation on a seminar topic will help an Engineering student to understand the topic well and also gain knowledge about that topic by doing background research. IETE seminar/webinar are delivered on recent Technology like in Microcontroller ,Embedded, VLSI, Internet of Things, Digital Signal Processing, Data Science etc
3	Technovation	ISF SCOE conduct Technical Poster Competition every year, its name given as TECHNOVATION.in which students from different colleges participated in this competition and then final 3 winners are rewarded and appreciated for their Technical research and presentation. The objectives of Poster Competition are to provide an opportunity for the technical students to demonstrate their independence, originality and ethics.and also we like to train the students to showcase their talent, skills and ideas through their projects.
