General Recommendations:

All details shared and discussed with HOD madam, the class teachers and students, as & when required. However, as per the views shared:

- Modules may prove to be additionally beneficial if students are regular and the seriousness towards the cause is maintained. This would help in increased participation following a proper sequence. (Breaks in between tend to slow the pace for them and their further involvement in the tasks given)
- Soft skill learning is beneficial for all students and that the main focus of 'Add- on Nurture' program has been imparting training for the placement related purposes. As suggested and if possible, a final sorted list can be prepared for the students showing larger interest. This may avoid unnecessary peer pressures & disturbance to the ones interested, ensuring complete participation.

It has been an enriching experience to train the young students. All the students, who attended the sessions, were enthusiastic and keen to improve and many of them have shown potential to go ahead successfully.

- The 'Add- on Nurture' training activity is a new step taken in the interest of our students. Any new effort targeted towards learning and improvement of students takes an institute to the next level along with a scope for improvement. Hence, valuable suggestions, recommendations & views are most welcome.
