TRAINING REPORT

HR MOCK SESSION CAPGEMINI BATCH

Date: 9.08.20

Department : IT, EXTC & Computer Engineering.

Attendees: **FINAL YEAR B.E STUDENTS**

Venue: Online Platform. Google Meet

Speaker: Prof. Sima Singh

The training program was arranged for the final year B.E Students. The Program was attended by approx 14 students (IT -3, Computer -6, EXTC -5).

Course Objective: The aim of this program is to help students in developing their interview skills and personal qualities related to gaining and sustaining employment. A mock interview process helps candidates gain confidence with the chance to reflect on their non-verbal and verbal communication abilities. It also provides an opportunity for interviewees to make mistakes and work on correcting them in a safe atmosphere.

Course Content :

- Identifying weaknesses and teaching students how to fix them
- Make students learn which skills they lack and find out if there is any gap in communication, thus helping improve communication skills or verbal abilities
- Emulate difficult questions and stress along with a time constraint
- Ensure that students prepare for the mock interviews, thus helping them during real interviews as well
- Help students learn about the domain, industry or job role more and what kind of questions they will face
- Teaching important interview techniques

PRINCIPAL
Saraswati College of Engineering
Kharghar, Navi Mumbai-410210

- Help students develop interview strategies
- Allow students to grow more confident and stay calm in interviews
- Facilitate an environment for practicing and becoming perfect

Course Outcome :

1. Students are able to reduce their anxiety and stress by sitting for mock interviews. There are no consequences of not performing well during these interviews, thus, candidates can test their answers and get the necessary feedback. Unlike real interviews, students can redo or retake their interviews as well.
2. Mock interviews boost the confidence of students. Once they begin to perform well during practice interviews, they become confident of their abilities and skills. The results of this are projected during real interview sessions as well, allowing students to remain calm and composed under stress.
3. Acquire constructive feedback that allows one to clarify questions, responses and problems. Identification of mistakes and weaknesses are especially important and practice interviews do just that for students.
4. Helps with interviews that are behaviour-based and focused upon analyzing the personality of a student. This is especially useful when students are not familiar with the kind of questions that are asked during real interviews.

- PRINCIPAL
Saraswati College of Engineering
Kharghar, Navi Mumbai-410210

The training was imparted on the module of HR mock interview session to make the students suitable and eligible and ready for real interviews. Training was given on Personal introduction and Resume making. The students were trained and given guidance on formal introduction of themselves while facing interview sessions. They learnt Self introduction to refer to a clear, confident, and concise introduction. It explained the student's identity, personality and what things should be known to others. Students were able to cover all aspects of themselves while self-introducing to anyone. In resume making the students were taught how

and where to display their top skills and qualities. They also learnt how to structure their resume and what information they decide to include. They were also given actionable resume tips that might help them achieve their next career move. Students were also trained on prospective questions that are asked frequently in the interview round and their suitable answers which would give them an added advantage to make their way to win. In this session they were given training on the skills they need to have to ace an interview. In a wide range of situations, the ability to answer tough questions, and to stay cool under pressure, is extremely valuable. We outlined the preparation needed to do in advance, then to follow up afterward, and finally to deliver a polished and persuasive performance in the interview itself - giving students the very best chance of success.

Finally a mock HR drill was conducted where they were asked various questions and given a professional atmosphere of facing interviews. A mock interview is a practice interview that simulates a real interview as closely as possible. A mock interview involves accustoming potential job candidates to various interview settings and helping them to prepare their responses to commonly asked interview questions. The students were trained in the said setting so that they could get used to it and be comfortable to face the situation in future.

TRAINING REPORT

SOFT SKILL TRAINING ON CV WRITING

Date: 19/04/2021

Department: Automobile Engineering

Attendees: Final Year B.E. students

Venue: Online Platform Google Meet

Speaker: Prof. Sima Singh

The Training program was arranged for the final year B.E. students. The program was attended by 40 students.

Course Objective:

The aim of this program is to help students in writing of good professional CV. This soft skill training helps students that how they can highlight all of their relevant professional and academic experience through CV, and how they can show an employer that they're a great fit for the job.

Course content:

- What is a CV or Résumé?
- Things You Should Do When Writing a CV.
- CV Mistakes and Pitfalls to Avoid.
- The Golden Rule of CV Writing.
- A great list of writing skills for various jobs.
- Writing tips for how to improve writing skills.
- The importance of writing skills on a resume.
- How to prove your writing skills so employers want to call you.
- Samples of different standard resume.

PRINCIPAL
Saraswati College of Engineering
Kharghar, Navi Mumbai-410210

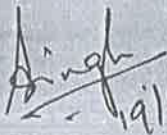

Course Outcome:

1. Students are able to understand about the CV and importance of CV in professional career.
2. They understood about : Things to Do When Writing a CV
 - Decide whether they want to start with a personal statement.
 - Include sections on Key Skills, Knowledge and Achievements, Work Experience, and Education Precisely.
 - Concentrate on personal actions, the precise outcome.
 - Include everything relevant in 'Work Experience' and 'Education'
 - Check the essential requirements for the job, and make sure they've included anything that's mentioned.
 - Make sure that spelling and grammar are all correct.
 - Work on presentation.
 - Lay CV out nicely on the page so that it's easy to read and looks professional.
3. They understood about : Things to avoid When Writing a CV
 - Do not be tempted to lie
 - Avoid leaving gaps in career history
 - Do not start CV with the dull bits like starting with their education and qualifications
 - Start with key skills, and what they've actually achieved in life. If potential employers like key skills then they'll read on to your qualifications.
 - Do not include hobbies and interests
 - Don't make your CV too long

Finally students were asked various question on their doubt and all the doubt were cleared by prof. Sima Singh.

The program was concluded by vote of thanks delivered by Prof. Sima Singh who thanked the students for attending the session.

TRAINING REPORT

Verbal Aptitude Session.

TCS Placement Drive

Date: 26.07.21 to 30. 07. 21

Venue: Virtual Platform. Google Meet.

Department: IT, EXTC & COMPUTER ENGINEERING.

Attendees: **FINAL YEAR STUDENTS**

Speaker: Prof. Sima Singh

The training program was arranged for the Final Year IT, EXTC & COMP Students. The Program was attended by approx. 60 students.

PRINCIPAL
Saraswati College of Engineering
Kharghar, Navi Mumbai-410210

Course Objective: The aim of this program is to help candidates in developing their verbal ability and skills related to gaining and sustaining employment. Verbal aptitude refers to a **person's ability to understand and respond to spoken information**. Aptitude tests are used to assess an individual's skills or ability. To **help the student understand the importance of having his language skills kept ready for effective use**. To provide a host of varied

opportunities for the students to hone their acquired language skills basic components, namely, Grammar, Vocabulary, Spelling and Comprehension.

Course Content :

- Practice on Parts of Speech
- Practice on Tenses, Articles & Vocabulary
- Practice on Meaningful sentence, spellings & word selection
- Practice on Sentence Completion and Sentence Ordering
- Practice on Cloze Test, Error Correction & Error Detection
- Practice on Comprehension, Passage Ordering, Selecting Words
- Practice on Spelling, Synonyms & Antonyms, Sentence Completion
- Official Email writing and Cover letters
- Essay Writing Tips

Course Outcome :

1. To help students explore their values and career choices through individual skill assessments
2. To develop and practice self management skills for the work site
3. To explore and practice basic communication skills
4. To explore and practice basic grammatical skills
5. To explore and excel in the verbal aptitude skills
6. To explore the Intellectual skills where the student will understand concepts, rules or procedures. Put simply, this is understanding how to do something.
7. To develop the Cognitive strategy so that the student uses personal strategies to think, organize, learn and behave.
8. Enhance the Verbal information of the students. This type of learning outcome is when the student is able to definitively state what they have learned from an organized body of knowledge.

PRINCIPAL
Saraswati College of Engineering
Navi Mumbai-410210

9. Develop the Motor skills of the students. This category is concerned with the physical ability to perform actions, achieving fluidity, smoothness or proper timing through practice.
10. Build Positive Attitude This is the internal state that reflects in the student's behavior. It is complex to quantify but can be shown in the student's response to people or situations.

The training was imparted on Verbal Aptitude Session To help the student understand the importance of having his language skills kept ready for effective use.

Brush up session was given on the basics of grammar where students could practice parts of speech and other grammar portions. Session on Verbal aptitude was done so that they could practice and crack the verbal ability round. Practice session was done to provide a host of varied opportunities for the student to hone their acquired language skills basic components, namely, Grammar, Vocabulary, Spelling, Comprehension, Passage Ordering, Selecting Words, Spelling, Synonyms & Antonyms, Sentence Completion. The students were trained so that they could be able to read and understand written English passages, evaluate reasoning arguments and analyze relationships among words and concepts, and relationships among component parts of sentences. The verbal reasoning section of the test measures the student's comfort and fluency in interacting with written language. The test taker has to read the written material and interact with it. There would be text completion questions where the student needs to fill in the missing words, the verbal test uses this to

Handwritten signature in blue ink.

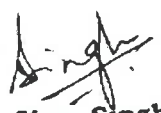

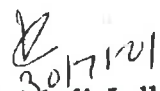

measure the ability of a student to not only comprehend the information but also to have the reasoning skills to support complex ideas.

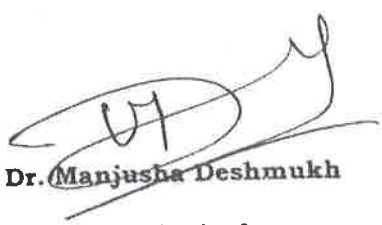

The session was actively attended by the students and they enthusiastically participated in the session.

The program was concluded by vote of thanks delivered by Prof. Sima Singh who thanked the students for attending the session.

Verbal Aptitude Doubt Clearing Session.

Date: 10.08.21, 12.08.21 & 13.08.21

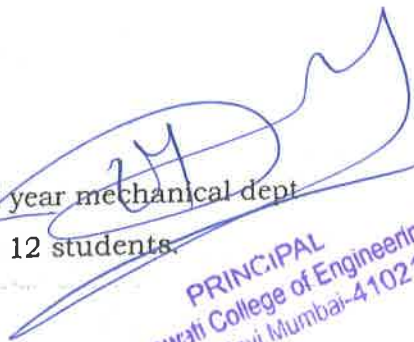

Venue: Virtual Platform. Google Meet

Department: Comp/IT/EXTC

Attendees: **Final Year Students**

Speaker: Prof. Sima Singh

The training program was arranged for the final year mechanical dept Students. The Program was attended by approx 12 students.

PRINCIPAL
Saraswati College of Engineering
Kharghar, Navi Mumbai-410210

Course Objective: The main aim of doubt clearing sessions is to provide extra attention to the students, who are facing challenges in understanding some concepts. Doubt clearing sessions are conducted before or after the classes. The benefit of these sessions is that they encourage the students to clear their doubts on any topic/subject so that their actual performance is not affected. These sessions also act as a big motivator and help them to renew their energy and enthusiasm towards their goals.

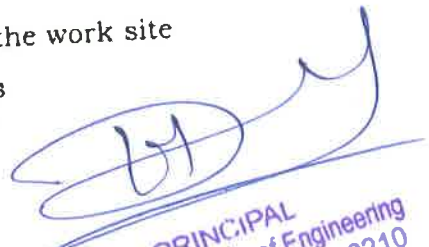

Course Content :

- Practice on Parts of Speech
- Practice on Tenses, Articles & Vocabulary
- Practice on Meaningful sentence, spellings & word selection
- Practice on Sentence Completion and Sentence Ordering
- Practice on Cloze Test, Error Correction & Error Detection
- Practice on Comprehension, Passage Ordering, Selecting Words
- Practice on Spelling, Synonyms & Antonyms, Sentence Completion
- Official Email writing and Cover letters
- Essay Writing Tips

Course Outcome :

1. To help students explore their values and career choices through individual skill assessments
2. To develop and practice self management skills for the work site
3. To explore and practice basic communication skills
4. To explore and practice basic grammatical skills
5. To explore and excel in the verbal aptitude skills
6. To explore the Intellectual skills where the student will understand concepts, rules or procedures. Put simply, this is understanding how to do something.
7. To develop the Cognitive strategy so that the student uses personal strategies to think, organize, learn and behave.
8. Enhance the Verbal information of the students. This type of learning outcome is when the student is able to definitively state what they have learned from an organized body of knowledge.

PRINCIPAL
Saraswati College of Engineering
Kharghar, Mumbai-410210

9. Develop the Motor skills of the students. This category is concerned with the physical ability to perform actions, achieving fluidity, smoothness or proper timing through practice.
10. Build Positive Attitude This is the internal state that reflects in the student's behavior. It is complex to quantify but can be shown in the student's response to people or situations.

The training was imparted on Verbal Aptitude Session To help the student understand the importance of having his language skills kept ready for effective use.

Brush up sessions and revision was given on the basics of grammar where students could practice parts of speech and other grammar portions. Session on Verbal aptitude was revised so that they could practice and crack the verbal ability round. Practice session was done to provide a host of varied opportunities for the student to hone their acquired language skills basic components, namely, Grammar, Vocabulary, Spelling, Comprehension, Passage Ordering, Selecting Words, Spelling, Synonyms & Antonyms, Sentence Completion. The students were trained so that they could be able to read and understand written English passages, evaluate reasoning arguments and analyze relationships among words and concepts, and relationships among component parts of sentences. The verbal reasoning section of the test measures the student's comfort and fluency in interacting with written

PRINCIPAL
Saraswati College of Engineering
Khar-Bli, Mumbai-410210

language. The test taker has to read the written material and interact with it. There would be text completion questions where the student needs to fill in the missing words, the verbal test uses this to measure the ability of a student to not only comprehend the information but also to have the reasoning skills to support complex ideas.

The session was actively attended by the students and they enthusiastically participated in the session.

The program was concluded by vote of thanks delivered by Prof. Sima Singh who thanked the students for attending the session.

TRAINING REPORT

HR MOCK SESSION ZEUS BATCH

Date: 18.08.21, 19.08.21

Venue: Virtual Platform. Google Meet.

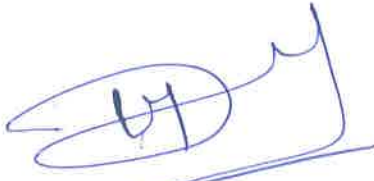

Department: COMP/IT

Attendees: **FINAL YEAR B.E STUDENTS**

Speaker: Prof. Sima Singh

The training program was arranged for the final year B.E Students. The

Program was attended by approx 2 students.

PRINCIPAL
Saraswati College of Engineering
Kharghar, Navi Mumbai-410210

Course Objective: The *aim* of this program is to help students in developing their interview skills and personal qualities related to gaining and sustaining employment. A mock interview process **helps candidates gain confidence with the chance to reflect on their non-verbal and verbal communication abilities**. It also provides an opportunity for interviewees to make mistakes and work on correcting them in a safe atmosphere.

Course Content :

- Identifying weaknesses and teaching students how to fix them
- Make students learn which skills they lack and find out if there is any gap in communication, thus helping improve communication skills or verbal abilities

- Emulate difficult questions and stress along with a time constraint
- Ensure that students prepare for the mock interviews, thus helping them during real interviews as well
- Help students learn about the domain, industry or job role more and what kind of questions they will face
- Teaching important interview techniques
- Help students develop interview strategies
- Allow students to grow more confident and stay calm in interviews
- Facilitate an environment for practising and becoming perfect

Course Outcome :

1. Students are able to reduce their anxiety and stress by sitting for mock interviews. There are no consequences of not performing well during these interviews, thus, candidates can test their answers and get the necessary feedback. Unlike real interviews, students can redo or retake their interviews as well.
2. Mock interviews boost the confidence of students. Once they begin to perform well during practice interviews, they become confident of their abilities and skills. The results of this are projected during real interview sessions as well, allowing students to remain calm and composed under stress.
3. Acquire constructive feedback that allows one to clarify questions, responses and problems. Identification of mistakes and weaknesses, especially important and practice interviews do just that for students.
4. Helps with interviews that are behaviour-based and focused upon analyzing the personality of a student. This is especially useful when students are not familiar with the kind of questions that are asked during real interviews.

The training was imparted on the module of HR mock interview session to make the students suitable and eligible and ready for real interviews.

Training was given on Personal introduction and Resume making . The students were trained and given guidance on formal introduction of themselves while facing interview sessions. They learnt Self introduction to refer to a clear, confident, and concise introduction. It explained the student's identity, personality and what things should be known to others. Students were able to cover all aspects of themselves while self-introducing to anyone. In resume making the students were taught how and where to display their top skills and qualities. They also learnt how to structure their resume and what information they decide to include. They were also given actionable resume tips that might help them achieve their next career move. Students were also trained on prospective questions that are asked frequently in the interview round and their suitable answers which would give them an added advantage to make their way to win. In this session they were given training on the skills they need to have to ace an interview. In a wide range of situations, the ability to answer tough questions, and to stay cool under pressure, is extremely valuable. We outlined the preparation needed to do in advance, then to follow up afterward, and finally to deliver a polished and persuasive performance in the interview itself – giving students the very best chance of success.

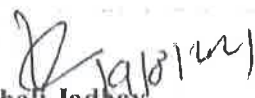

Finally a mock HR drill was conducted where they were asked various questions and given a professional atmosphere of facing interviews. A mock interview is a practice interview that simulates a real interview as closely as possible. A mock interview involves accustoming potential job candidates to various interview settings and helping them to prepare their responses to commonly asked interview questions. The students were trained in the said setting so that they could get used to it and be comfortable to face the situation in future.

Academic Year 2021-22

TRAINING REPORT

HR MOCK SESSION CAPGEMINI BATCH

Date: 20.09.21 & 21. 09. 21

Venue: Virtual Platform. Google Meet

Department: Comp/IT/EXTC

Attendees: **FINAL YEAR B.E STUDENTS**

Speaker: Prof. Sima Singh

The training program was arranged for the final year B.E Students. The Program was attended by 17 students.

Course Objective: The *aim* of this program is to help students in developing their interview skills and personal qualities related to gaining and sustaining employment. A mock interview process **helps candidates gain confidence with the chance to reflect on their non-verbal and verbal communication abilities**. It also provides an opportunity for interviewees to make mistakes and work on correcting them in a safe atmosphere.

Course Content :

- Identifying weaknesses and teaching students how to fix them
- Make students learn which skills they lack and find out if there is any gap in communication, thus helping improve communication skills or verbal abilities
- Emulate difficult questions and stress along with a time constraint
- Ensure that students prepare for the mock interviews, thus helping them during real interviews as well
- Help students learn about the domain, industry or job role more and what kind of questions they will face
- Teaching important interview techniques

PRINCIPAL
Saraswati College of Engineering
Kharghar, Navi Mumbai-410210

- Help students develop interview strategies
- Allow students to grow more confident and stay calm in interviews
- Facilitate an environment for practicing and becoming perfect

Course Outcome :

1. Students are able to reduce their anxiety and stress by sitting for mock interviews. There are no consequences of not performing well during these interviews, thus, candidates can test their answers and get the necessary feedback. Unlike real interviews, students can redo or retake their interviews as well.
2. Mock interviews boost the confidence of students. Once they begin to perform well during practice interviews, they become confident of their abilities and skills. The results of this are projected during real interview sessions as well, allowing students to remain calm and composed under stress.
3. Acquire constructive feedback that allows one to clarify questions, responses and problems. Identification of mistakes and weaknesses are especially important and practice interviews do just that for students.
4. Helps with interviews that are behaviour-based and focused upon analyzing the personality of a student. This is especially useful when students are not familiar with the kind of questions that are asked during real interviews.

 Saraswati College of Engineering
 Marghar, Navi Mumbai-410210

The training was imparted on the module of HR mock interview session to make the students suitable and eligible and ready for real interviews. Training was given on Personal introduction and Resume making . The students were trained and given guidance on formal introduction of themselves while facing interview sessions. They learnt Self introduction to refer to a clear, confident, and concise introduction. It explained the student's identity, personality and what things should be known to others. Students were able to cover all aspects of

while self-introducing to anyone. In resume making the students were taught how and where to display their top skills and qualities. They also learnt how to structure their resume and what information they decide to include. They were also given actionable resume tips that might help them achieve their next career move. Students were also trained on prospective questions that are asked frequently in the interview round and their suitable answers which would give them an added advantage to make their way to win. In this session they were given training on the skills they need to have to ace an interview. In a wide range of situations, the ability to answer tough questions, and to stay cool under pressure, is extremely valuable. We outlined the preparation needed to do in advance, then to follow up afterward, and finally to deliver a polished and persuasive performance in the interview itself – giving students the very best chance of success.

Finally a mock HR drill was conducted where they were asked various questions and given a professional atmosphere of facing interviews. A mock interview is a practice interview that simulates a real interview as closely as possible. A mock interview involves accustoming potential job candidates to various interview settings and helping them to prepare their responses to commonly asked interview questions. The students were trained in the said setting so that they could get used to it and be comfortable to face the situation in future.

The program was concluded by vote of thanks delivered by Prof. Sima Singh who thanked the students for attending the session.

Personality Development Workshop

Date: 22.10.21, 23.10.21 & 25.10.21

Venue: Virtual Platform. Google Meet.

Attendees: **SECOND YEAR DATA SCIENCE STUDENTS**

Speaker: Prof. Sima Singh.

The training program was arranged for the Second Year Data Science Students.
The Program was attended by approx 30 students.

Course Objective: The motive of the training was to groom the students, impart training and knowledge on their self introduction, resume making, formal dressing, impart sessions on how to face interviews and give sessions to enhance their overall Personality Development.

PRINCIPAL
Saraswati College of Engineering
Kharghar, Navi Mumbai-410210

valuable. We outlined the preparation needed to do in advance, then to follow up afterward, and finally to deliver a polished and persuasive performance in the interview itself – giving students the very best chance of success. Second session was on Personality Development that grooms an individual and helps him make a mark of his/her own. It helps the students to develop an impressive personality and makes you stand apart from the rest. It also plays an essential role in improving one's communication skills. There were students who opened up during this session and expressed themselves and enjoyed this session. However some of them were reluctant to speak.

Day 3. Third Day the training was conducted on Professional Grooming & Office Etiquette. Here the students were taught how to dress well and appropriately in the professional world. Proper grooming and a professional appearance are important to gain respect in the workplace. The way you look and carry yourself creates an impression on the people you work alongside. Both men and women should take care of and look after themselves. Both boys and girls were given sessions on their dress code, their hair style, their shoes, personal hygiene, etc. in Office Etiquette the students were given guidance on the unwritten rules set in the company by the employees that are to be followed. These rules are referring to having appropriate manners and behaviors, being courteous of other employees, being hygiene and using the equipment in a suitable manner in order to have a harmonious workplace. The session was actively attended by the students and they liked the session.

Some students participated with enthusiasm and clarified their doubts however there were many who were sceptical in talking.

Day 2. Second day the training was given on Interview Skills & Personality Development. In this session they were given training on the skills they need to have to ace an interview. In a wide range of situations, the ability to answer tough questions, and to stay cool under pressure, is extremely valuable. We outlined the preparation needed to do in advance, then to follow up afterward, and finally to deliver a polished and persuasive performance in

 Kharghar, Navi Mumbai-410210

the interview itself – giving students the very best chance of success. Second session was on Personality Development that grooms an individual and helps him make a mark of his/her own. It helps the students to develop an impressive personality and makes you stand apart from the rest. It also plays an essential role in improving one's communication skills. There were students who opened up during this session and expressed themselves and enjoyed this session. However some of them were reluctant to speak.

Day 3. Third Day the training was conducted on Professional Grooming & Office Etiquette. Here the students were taught how to dress well and appropriately in the professional world. Proper grooming and a professional appearance are important to gain respect in the workplace. The way you look and carry yourself creates an impression on the people you work alongside. Both men and women should take care of and look after themselves. Both boys and girls were given sessions on their dress code, their hair style, their shoes, personal hygiene, etc. In Office Etiquette the students were given guidance on the unwritten rules set in the company by the employees that are to be followed. These rules are referring to having appropriate manners and behaviors, being courteous of other employees, being hygiene and using the equipment in a suitable manner in order to have a harmonious workplace. The session was actively attended by the students and they liked the session.

The three day program was concluded by vote of thanks delivered by Prof. Sima Singh who thanked the students for attending the session

TRAINING REPORT

Personality Development Workshop

Date: 27.10.21 to 29.10.21

Venue: Virtual Platform. Google Meet

Attendees: **SECOND YEAR COMPUTER ENGINEERING STUDENTS**

Speaker: Prof. Sima Singh

The training program was arranged for the Second Computer Engineering Students. The Program was attended by approx 20 students.

Course Objective: The motive of the training was to groom the students, impart training and knowledge on their self-introduction, resume making, formal dressing, impart sessions on how to face interviews and give sessions to enhance their overall Personality Development.

PRINCIPAL
Saraswati College of Engineering
Kharghar, Navi Mumbai-410210

Course Content & Course Outcome

Day 1. First Day the training was imparted on Self introduction and Resume making. The students were trained and given guidance on formal introduction of themselves while facing interview sessions. They learnt Self introduction to refer to a clear, confident, and concise introduction. It explained the student's identity, personality and what things should be known to others. Students were able to cover all aspects of themselves while self-introducing to anyone. In resume making the students were taught how and where to display their top skills and qualities. They also learnt how to structure their resume and what information they decide to include. They were also given actionable resume tips that might help them achieve their next career move. Some students participated with enthusiasm and clarified their doubts however there were many who were hesitant in talking.

Day 2. Second day the training was given on Interview Skills & Personality Development. In this session they were given training on the skills they need to have to ace an interview. In a wide range of situations, the ability to answer tough questions, and to stay cool under pressure, is extremely valuable. We outlined the preparation needed to do in advance, then to follow up afterward, and finally to deliver a polished and persuasive performance in the interview itself – giving students the very best chance of success. Second session was on Personality Development that grooms an individual and helps him make a mark of his/her own.
