TRAINING REPORT

VERBAL ABILITY SESSION TCS NINJA BATCH

Department: Automobile, Civil, Computer, Mechanical, EXTC, IT

Date: 30/9/20, 01.10.2020, 08.10. 2020, 09.10.2020 & 10.10.2020

Venue: Virtual Platform. Google Meet

Attendees: **FINAL YEAR B.E STUDENTS**

Speaker: Prof. Sima Singh

The training program was arranged for the final year B.E Students. The Program was attended by approx 60 (Civil 01, Auto -01, Mech- 01, II - 25, Extc - 15, Computer - 16) students.

Course Objective: The aim of this program is to help students in developing their interview skills and personal qualities related to gaining and sustaining employment. A mock interview process helps candidates gain confidence with the chance to reflect on their non-verbal and verbal communication abilities. It also provides an opportunity for interviewees to make mistakes and work on correcting them in a safe atmosphere.

Course Content :

- Identifying weaknesses and teaching students how to fix them
- Make students learn which skills they lack and find out if there is any gap in communication, thus helping improve communication skills or verbal abilities
- Emulate difficult questions and stress along with a time constraint
- Ensure that students prepare for the mock interviews, thus helping them during real interviews as well
- Help students learn about the domain, industry or job role more and what kind of questions they will face
- Teaching important interview techniques
- Help students develop interview strategies
- Allow students to grow more confident and stay calm in interviews

- Facilitate an environment for practising and becoming perfect

Course Outcome :

1. Students are able to reduce their anxiety and stress by sitting for mock interviews. There are no consequences of not performing well during these interviews, thus, candidates can test their answers and get the necessary feedback. Unlike real interviews, students can redo or retake their interviews as well.
2. Mock interviews boost the confidence of students. Once they begin to perform well during practice interviews, they become confident of their abilities and skills. The results of this are projected during real interview sessions as well, allowing students to remain calm and composed under stress.
3. Acquire constructive feedback that allows one to clarify questions, responses and problems. Identification of mistakes and weaknesses are especially important and practice interviews do just that for students.
4. Helps with interviews that are behaviour-based and focused upon analyzing the personality of a student. This is especially useful when students are not familiar with the kind of questions that are asked during real interviews.

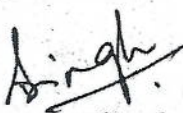

The training was imparted on the module of HR mock interview session to make the students suitable and eligible and ready for real interviews. Training was given on Personal introduction and Resume making . The students were trained and given guidance on formal introduction of themselves while facing interview sessions. They learnt Self introduction to refer to a clear, confident, and concise introduction. It explained the student's identity, personality and what things should be known to others. Students were able to cover all aspects of themselves while self-introducing to anyone. In resume making the students were taught how

and where to display their top skills and qualities. They also learnt how to structure their resume and what information they decide to include. They were also given actionable resume tips that might help them achieve their next career move. Students were also trained on prospective questions that are asked frequently in the interview round and their suitable answers which would give them an added advantage to make their way to win. In this session they were given training on the skills they need to have to ace an interview. In a wide range of situations, the ability to answer tough questions, and to stay cool under pressure, is extremely valuable. We outlined the preparation needed to do in advance, then to follow up afterward, and finally to deliver a polished and persuasive performance in the interview itself – giving students the very best chance of success.

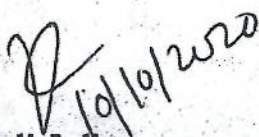

Finally a mock HR drill was conducted where they were asked various questions and given a professional atmosphere of facing interviews. A mock interview is a practice interview that simulates a real interview as closely as possible. A mock interview involves accustoming potential job candidates to various interview settings and helping them to prepare their responses to commonly asked interview questions. The students were trained in the said setting so that they could get used to it and be comfortable to face the situation in future.

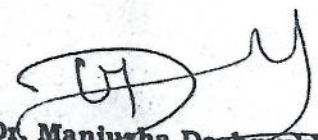

The program was concluded by vote of thanks delivered by Prof. Sima Singh who thanked the students for attending the session.

REPORT ON CAREER OPPORTUNITIES IN IT INDUSTRIES

Title of the Event:- A Talk on Career Opportunities in IT Industries

Date & Time: 24th January 2020 at 10.00 am to 1.00 pm

Venue: Auditorium-Engineering Building

Total Participants: 176 Classes: TE/BE

Speaker: - Mr. Mannan Bobde - HR Capgemini-India

Objective: To make students aware about Job opportunities of different engineering streams in IT industries and guidance for the preparation for the same.

About The event:

Saraswati College of Engineering, has arranged a talk by Capgemini-HR , Mr. Mannan Bobde for all Third Year Engineering Students. Mr. Mannan guided students about Road-to Corporate, and what kind of preparation required to get employed. From fresher Engineers what are skills set expectations of the IT industries, what kind of questions usually asked in HR round and How to answer them honestly. The session was very interesting and students participated actively till the end.

TRAINING REPORT

Personality Development Workshop

Date: 1/6/2020 to 05/06/2020

Department: Civil, EXTC & IT

Venue : Virtual Platform. Google Meet

Attendees: **FIRST YEAR STUDENTS**

Speaker : Prof. Sima Singh

The training program was arranged for the First Year Students. The Program was attended by approx 40 students (Civil-38, Extc-05 & IT-26) .

Course Objective: The motive of the training was to groom the students, impart training and knowledge on their self introduction, resume making, formal dressing, impart sessions on how to face interviews and give sessions to enhance their overall Personality Development.

Course Content & Course Outcome:

The training was imparted on Self introduction and Resume making. The students were trained and given guidance on formal introduction of themselves while facing interview sessions. They learnt Self introduction to refer to a clear, confident, and concise introduction. It explained the student's identity, personality and what things should be known to others. Students were able to cover all aspects of themselves while self-introducing to anyone. In resume making the students were taught how and where to display their top skills and qualities. They also learnt how to structure their resume and what information they decide to include. They were also given actionable resume tips that might help them achieve their next career move. Some students participated with enthusiasm and clarified their doubts however there were many who were hesitant in talking.

Notice**Date: 26/05/2020**

Saraswati College of Engineering has Scheduled Personality Development Workshop for the First Year students. This workshop includes professional grooming sessions. All First Year students are hereby instructed to attend the workshop as per the Schedule given below.
