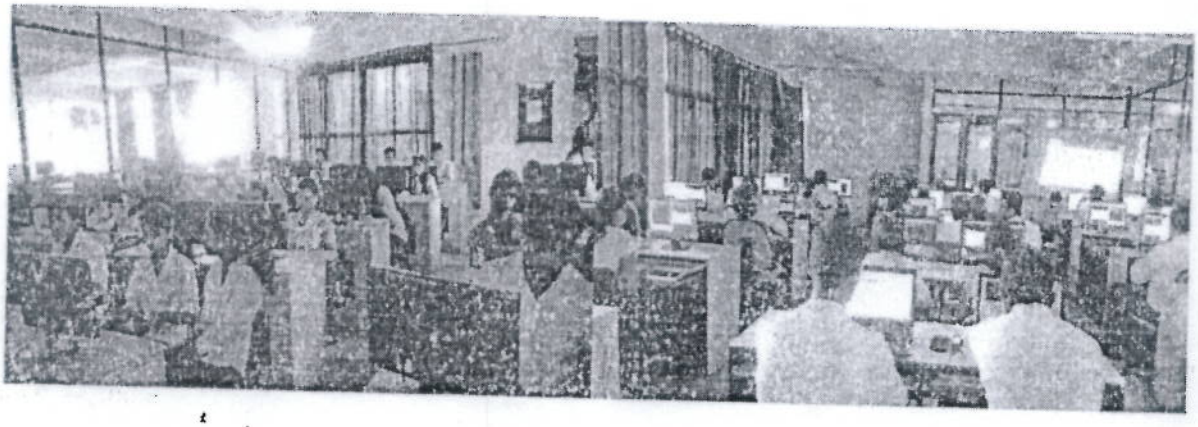
Workshop on Python

Date: 25/08/17

Department of Information Technology organized 3-day workshop on Python Programming. This workshop was basically intended for third year students of IT. This workshop was offered by the FOSSEE Project, IIT Bombay, funded by National Mission on Education through ICT, MHRD. Govt. of India.



Workshop was conducted in duration 22/08/2017 to 24/08/2017 9.30 t0 5pm. Number of attendees for this workshop was 34. Workshop was conducted by Prof. Prabhu Ramchandran. From IIT Bombay. Faculty Coordinators for workshop were Prof. Pragati Pejlekar and Prof. Shraddha Subhedar. Coordinator from FOSSEE project was Mr. Aditya. This hands on Python programming course shown how to rapidly develop and maintain effective Python Programs The course included thorough coverage of Python syntax, built in data types and control constructs. Numpy arrays, control flows, data structures, Functions and File handling. 34 students enrolled and completed this workshop successfully.

Recommendations:

All details were shared and discussed with HOD madam, the class advisor and students, as & when required. However, as per the views shared:

- Modules may prove to be additionally beneficial if students are regular and the seriousness towards the cause is maintained. This would help in increased participation following a proper sequence
- As an option, a final sorted & selected list can be prepared for the students showing larger interest. This may avoid unnecessary peer pressures & disturbance to the ones interested, ensuring complete participation.
- It has been an enriching experience to train the young students.
- All the students, who attended the sessions, were enthusiastic and keen to improve and many of them have shown potential to go ahead successfully.

The 'NURTURE' Skill development program is a new step taken in the interest of our students.

Any new effort targeted towards learning and improvement of students takes an institute to the next level along with a scope for improvement. Hence, valuable views are most welcome.

With Regards,

Alka
