The Mechanical Engineering Students Association conducted a Money Management Workshop. The chief guest and the speaker for this webinar was Mr. Sagar Chaube Sir, who gave a lot of tips and tricks to save and invest our money at early age. The workshop included the topics which made everyone understand the future cash flows, learning how to make a financial safety net, differentiate between assets and liabilities & most importantly how to make money work for us.

The workshop was attended by students and the faculties as well, which turned out to be a great interactive session for everybody.
